

Accelerate transformation to support a low-carbon future

## Climate and Decarbonization

Create strategies, unlock insights, and drive decisions related to your carbon footprint. Through process and product analyses, audits, and industry benchmarking, we can help you understand where you stand on energy consumption, decarbonization, and more—leveraging solutions such as SAP Product Footprint Management and SAP Environment, Health, and Safety Management to give you greater control over activities.

### We can help you...

- Analyze materiality and define your business objectives
- Assess product lifecycles and provide support with external data sources
- Understand impact and risk through climate assessments
- Create end-to-end strategies for green products/services and other innovations
- Conduct footprint audits and benchmarking

### SAP solutions in focus

- SAP Environment, Health, and Safety Management
- SAP Product Footprint Management

### Potential benefits

Generate new insights and take more meaningful action to achieve your sustainability goals

Accelerate your organization's journey to net-zero

Reduce manual efforts for gathering data, managing information, and generating reports

Leverage your existing operational data to support your decarbonization ambitions

Make sustainability reporting more integrated, reliable, and automated

## Why Deloitte?

**Depth.** Sustainable goals and research requirements have been an important part of the global landscape for the last 15 years, and our multidisciplinary approach can help embed all aspects of sustainability into your ESG journey, from strategic decision making to reporting.

**Breadth.** Industry-leading expertise through Deloitte's complementary risk advisory, legal, tax, and audit services, as well as Deloitte's network of global product compliance specialists; a worldwide corps of tax professionals who understand the differing requirements in each region, to help organizations remain compliant.

**Full-service capabilities.** End-to-end solutions and services across the "advise, implement, operate," spectrum—from concept design to SAP technology implementation to innovation and operations.

**Technical knowhow and leadership.** Extensive SAP S/4 HANA implementation and integration experience involving SAP

Product Footprint Management, as well as active involvement in standards-setting forums and communities.

**Focused tools and offerings.** Pre-built content and solutions, including intelligent dashboards for carbon measuring and reporting; example include:

- Intelligent Infrastructure Control Centre (IICC) – Carbon Dashboard
- Deloitte Decarbonization Solutions™
- Carbon Analytics
- D-CARB for Sustainable Planning

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients.
