Deloitte Center
for Energy Solutions
Tap an inexhaustible
resource

Today's energy companies operate in a dynamic and fluctuating environment requiring new ideas and innovative approaches.

Deloitte Center for Energy Solutions

Energy tops the agenda for governments and business around the world. Fluctuating demand, constrained supply, volatile commodity prices, and changing regulatory environments are a few of the critical issues contributing to the complexities of today's energy industry. Companies must navigate through this environment to achieve sustainable, profitable growth.

The Deloitte Center for Energy Solutions provides comprehensive solutions and services to help companies meet their goals of sustainable, profitable growth through several means:

- Providing a forum for industry executives to discuss the latest trends and issues
- Creating dialog between policy makers and industry leaders
- Sharing ideas and best practices from within the energy industry and from other industries impacted by energy challenges
- Leveraging state-of-the-art video conferencing facilities for presentations from Deloitte subject matter advisors around the world on topics that matter to the global energy industry

- Bringing together Deloitte energy industry professionals across disciplines – audit, tax, consulting, and financial advisory services – to develop and deliver comprehensive solutions and services to help our clients solve their most complex challenges
- Establishing alliances and partnerships with organizations that deliver value to the energy industry
- Delivering research from Deloitte and in some instances a combination of Deloitte and academic organizations on topics that will be relevant to the industry in the near-term

Collaboration with our clients, to best understand their needs, is at the core of our approach to solutions and services in the Deloitte Center for Energy Solutions.

Executive team

Greg Aliff

Vice Chairman
U.S. Energy & Resources Leader
Deloitte LLP
+1 703 251 4380
galiff@deloitte.com

As U.S. Energy & Resources leader, Greg Aliff directs the Deloitte Center for Energy Solutions and is responsible for the coordination of the organization's services to the energy industry. A certified public accountant, Aliff has provided professional services to the energy industry for over 30 years.

Aliff is a member of the board of the United States Energy Association and coauthor of the reference book *Accounting for Public Utilities*. He is a frequent contributor to many of the industry's leading publications and has appeared on a variety of industry programs sponsored by organizations such as the American Gas Association, Edison Electric Institute, the National Association of Regulatory Utility Commissioners, and the United States Energy Association.

Aliff has testified as an expert witness before several state regulatory commissions, the Canadian National Energy Board, and the U.S. Tax Court.

Gary Adams

Vice Chairman
U.S. Oil & Gas Leader
Deloitte LLP
+1 713 982 4160
gaadams@deloitte.com

Gary Adams is vice chairman of Deloitte's Oil & Gas Group and oversees the Houston location of the Deloitte Center for Energy Solutions.

Adams leads Deloitte's Oil & Gas Group —audit, tax, consulting, and financial advisory services — and has been instrumental in making Deloitte one of the preeminent professional services providers to the oil and gas industry, ensuring that the organization's services are grounded in a deep understanding of the business drivers and challenges facing its clients, while also providing innovation and thought leadership across all of its efforts.

Adams has served the oil and gas industry for over 20 years. Prior to joining Deloitte, he was a partner in the oil and gas practice at PricewaterhouseCoopers. When IBM acquired PricewaterhouseCoopers' consulting operations in 2002, Adams became IBM's global upstream oil and gas practice leader, responsible for aligning the company's solutions, services, and investments to help oil and gas companies find solutions for their most challenging issues.
