Deloitte's 2011
Technology Fast 500™
Connect. Grow. Inspire.

About Deloitte's Technology Fast 500™

The Deloitte Technology Fast 500 is the pre-eminent technology awards program in North America (U.S. and Canada) with 2011 being its seventeenth anniversary. Combining technological innovation, entrepreneurship and rapid growth, Fast 500 companies – large, small, public, and private – span a variety of industry sectors including hardware, software, telecom, semiconductors, life sciences and emerging areas, such as clean technology. Many of these companies are on the cutting edge and are transforming the way we do business today.

Selection and Qualifying Criteria

Technology Fast 500 provides a ranking of the fastest growing technology, media, telecommunications, life sciences and clean technology companies – both public and private – in North America (U.S. and Canada). Technology Fast 500 award winners for 2011 are selected based on percentage fiscal year revenue growth during the period from 2006 to 2010.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year (2006) operating revenues of at least \$50,000 USD or CD, and current-year (2010) operating revenues of at least \$5 million USD or CD. Additionally, companies must be in business for a minimum of five years, and be headquartered within North America.

Ranking is rounded to the nearest percentage point. Revenue growth over the five year period is calculated as follows: $[(FY'2010 \text{ revenue} - FY'2006 \text{ revenue}) / FY'2006 \text{ revenue}] \times 100$. For example, a company with reported revenues of \$350,000 in 2006 and \$7,500,000 in 2010, would have fiscal year revenue growth of 2,043% during the period of 2006 to 2010.

This ranking is compiled from nominations submitted directly to the Technology Fast 500 Web site, and public company database research conducted by Deloitte LLP. Deloitte has not audited the ranking and, accordingly, does not express an opinion or any other form of assurance on it. Some companies that may be eligible to appear in the ranking are not included because they did not submit the required information or otherwise declined to participate.
