

Central Accruals Management with SAP Central Finance

INTRODUCTION

In the dynamic landscape of financial transformation, with the increasing complexity in business it is important to have a reliable and consistent rule of financial reporting. Consequently, it is important to accurately accrue for both revenue and expense at the end of the reporting period.

SAP Central Finance introduced Central Accruals Management, redefining how organizations approach accruals in centralized finance instance using SAP Central Finance, with an automated process for calculation and posting of the accruals, bringing a new level of efficiency and accuracy.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (DTTL), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/de/ueberUns to learn more.

Deloitte provides industry-leading audit and assurance, tax and legal, consulting, financial advisory, and risk advisory services to nearly 90% of the Fortune Global 500® and thousands of private companies. Legal advisory services in Germany are provided by Deloitte Legal. Our people deliver measurable and lasting results that help reinforce public trust in capital markets, enable clients to transform and thrive, and lead the way toward a stronger economy, a more equitable society and a sustainable world. Building on its 175-plus year history, Deloitte spans more than 150 countries and territories. Learn how Deloitte's approximately 457,000 people worldwide make an impact that matters at www.deloitte.com/de.

This communication contains general information only, and none of Deloitte Consulting GmbH or Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms or their related entities (collectively, the "Deloitte organization") is, by means of this communication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser.

No representations, warranties or undertakings (express or implied) are given as to the accuracy or completeness of the information in this communication, and none of DTTL, its member firms, related entities, employees or agents shall be liable or responsible for any loss or damage whatsoever arising directly or indirectly in connection with any person relying on this communication. DTTL and each of its member firms, and their related entities, are legally separate and independent entities.

INTEGRATION BACKBONE

Central Accrual Management seamlessly integrates with the Accounting view of Logistics (AVL) information. The replicated AVL Purchase order data is then transferred to the Accrual engine in Central Finance to perform accrual activities.

To use this functionality, a Central Finance release of SAP S/4HANA 1909 or higher (for accruals) and SAP S/4HANA 2022 or higher (for deferrals) is needed.

ADDRESSING LIMITATIONS

Purchase orders with account assignment of sales order fall outside the out of the box feature scope. However, SAP provides a solution through the BAdI implementation (BAdI_FINS_CFIN_ACCTASGT_MAP), which allows for the adjustment of account assignments from sales order to the internal order in Central Finance system.

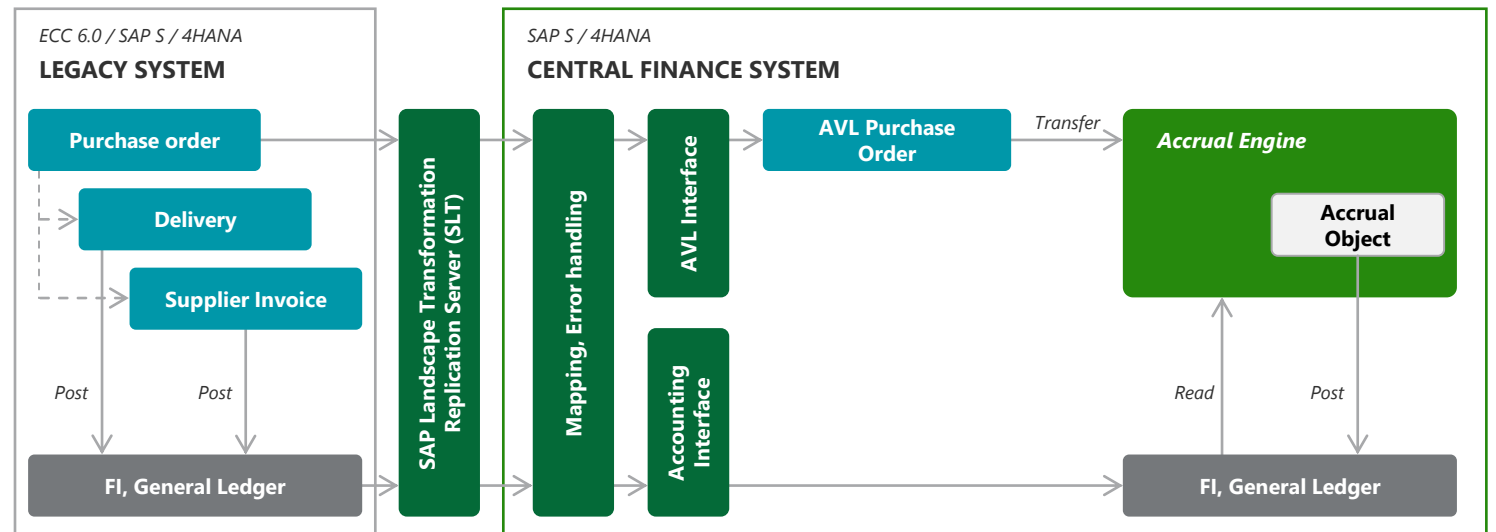

BENEFITS

By automating accrual calculations and postings in Central Finance, organizations experience enhanced reporting & operational efficiency, via Central Finance as a single source of truth, transparent reporting & auditability, and improved compliance.

CONCLUSION

In summary, Central Accrual Management is a pragmatic solution for finance community seeking precision and efficiency in finance operational process, using Central Finance as a centralized single source of truth for finance information.

Central Accrual management is a catalyst for unlocking financial excellence in the journey towards the unified and intelligent financial landscape.
