Subject Annual performance reviews are a key component of employee development. The performance review is intended to be a fair and balanced assessment of an employee's performance.

Our new policy specifies that the objective of the annual review is to provide all regular Company X staff and their supervisors an opportunity to Discuss job performance and set Set goals for professional development. Using our new SAP HR module we are able to also provide access to some key rating elements during the year here.

Please note that this site is still in a beta development stage and only accessible by a random sample testgroup.

Regards
Jon Smith
