Power up to modern banking

with BankingSuite

Banking is experiencing disruption like never before. Customer needs are evolving rapidly, digital challengers are emerging constantly, and the regulatory atmosphere is shifting quickly, both in the United States and globally.

We're living in a new digital banking era with limitless opportunities, whether you're looking to grow your customer base, reduce your operating costs, or transform your entire business model. But navigating the journey can feel overwhelming, with an infinite set of decisions to make. BankingSuite from Converge™ by Deloitte can help you break down that complexity and reduce thousands of decisions into the few that really count.

Converge™
by Deloitte

The BankingSuite Platform

Our modern, composable banking platform helps you build new digital capabilities and products at pace. Choose individual capabilities to modernize specific parts of your business or take the full stack to build new digital retail or small business banking propositions quickly.

BankingSuite: a modern, composable platform

Experience

Flexible, customizable front-end design system—for Android, iOS and web: Inventory of pre-built journeys | UI designs in Figma and tokenized for Flutter | Flutter platform | Customer insights

Onboarding | Servicing | Payments & Transactions | Lending | Savings & Checking

A modular set of banking capabilities: Experience microservices | Configurable choreography & orchestration for relevant functional journeys | Ecosystem adapters

Core and data

Integration to next-generation cores and the engine for your data and insights: Preconfigured core products | Customer data hub | Core migrator tool | Customer master record | Enterprise data and insights platform

Fabric platform

A secure, modern cloud platform to form the bedrock for your new digital capabilities: Dev & Sec Ops tooling | Microservice templates | Event streaming

Why BankingSuite?

Millions of hours learning and crafting.
All yours in an instant.

We believe there's a better way to achieve your digital banking vision—one where you can both buy and build the technology you need. In this new model, we've developed the software you need with the freedom to make it your own. Combined with our extensive delivery experience, industry insight, and best-in-breed ecosystem, our approach gives you more time to focus on what matters: setting your business apart. After spearheading hundreds of digital banking transformations, we've built that experience into our platform saving you thousands of hours of development effort.

- Meet compliance obligations.
- Stay up to speed.

Case Study: Western Union

Challenges

Western Union wanted to expand its core business with the launch of a new borderless bank proposition. This required an entire end-to-end digital bank launch from strategy to execution.

Solution

BankingSuite brought deep industry, CX, and product experience coupled with a wide ecosystem of vendors to enable Western Union to put a robust solution architecture with 40+ integration points for core banking systems in place, as well as design and deliver a new customer mobile experience incorporating 200 screens and states.

Results

With BankingSuite, what would have been a multi-year implementation was achieved in just 33 weeks. Revenue per customer was increased by 1.5x.
