

Tīheru will cultivate mentorship and support young Māori studying towards a career in professional services. The recipients will develop deep relationships with Deloitte for the duration of their studies, offering ongoing support from the Hourua Pae Rau community as well as a paid summer internship.

Tīheru directly seeks out rangatahi Māori who are about to embark on their higher education journey. To reach these rangatahi, we will leverage our connections through Hourua Pae Rau, Iwi and Hapū connections to the firm, and our Deloitte Grow programme educators. Recipients will receive a monetary benefit which can go towards study and living costs.
