

In this e-learning you will find out more about **sustainable development**, **sustainable finance**, and particularly about the various **stakeholders involved**. You will understand why this topic has gained momentum the last few years and the forces behind its development. By the end of the training, you will have learned what **sustainable development**, **sustainable finance** and **Sustainable Responsible Investments** are as well as **the risks of not addressing the sustainability challenges**.

1. Sustainable Development

- What is it and why does it exist?
- What happened so far?
- What targets have been set?

2. Sustainable Finance

- What is it and why does it exist?
- How big are required investments?
- What are the various initiatives led?

3. Sustainable & Responsible Investment

- What is SRI?
- How big is the SRI market?
- Which initiatives are in place to develop the SRI market?

4. Conclusion

- The three forces pushing financial players to a more sustainable society
- The risk of missing business opportunities if challenges are not addressed

5. Knowledge Check

- Randomized selection from a pool of questions. The participants will receive an individual certificate once the knowledge check is validated.
