

Alumni Newsletter Summer 2021

Dear Alumni,

I hope this finds you and yours safe and well.

For the last 16 months, we have collectively faced one of the toughest challenges we could ever have imagined. With calmness, determination and the belief that, like all things, this pandemic shall also pass, we have adapted our ways of living and collaborating with the hope of leaving this crisis stronger.

At Deloitte Luxembourg, these unprecedented times have been an occasion to tighten the unique ties that unite the Deloitte family, of which you are an integral part. It has also opened the door to imagining what the future of work will look like, and how we will continue to offer our people an exceptional working environment while empowering them to find the right work-life balance. There is no doubt that tomorrow will be different than yesterday, and we intend to make and offer the most of the new world opening in front of our very eyes.

This new paradigm also includes our steadfast determination to continue investing in our Firm and our people, and to seize the many opportunities of the post-pandemic world. It is in this spirit that we have once again promoted many of our talented professionals to Partners and Managing Directors. I am convinced that they are pivotal in leading the way to our collective success on the marketplace and beyond. Beyond, because it is clearer than ever that we need to join forces to build a more sustainable future that will benefit us all. In this regard, Deloitte remains committed to playing its part.

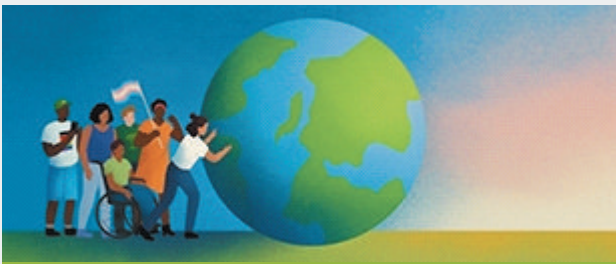

I am hopeful that the coming months will offer us the opportunity to gather our Alumni community again and spend quality time together like we used to. Until then, I wish you all a relaxing summer, hopefully reunited with the people who matter to you, and I truly look forward to our future interactions.

Keep safe,

John Psaila,
Managing Partner

Summer readings

Highlight: The Global 2021 Millennial and Gen Z Survey

The pandemic sapped younger generations' optimism but not their drive to compel real change in society and business. Here is what's changed—and what hasn't.

Read it [here](#).

Summer readings

6 hand picked insights from Luxembourg and beyond. From the latest technological trends and the investment areas prioritized in Europe, to The Future of Work and business' views on environmental sustainability.
