

Deloitte.

POPDV App

Swiftly and conveniently
to the populated POPDV form

Tax ●

What is the POPDV App?

The POPDV App is a specialized software solution developed by Deloitte with the aim of optimizing the process of populating the POPDV form **in just a couple of simple steps**.

Why the POPDV App?

The keeping of VAT records carries numerous challenges, which may often be time consuming, especially after the introduction of the new POPDV form. In this regard, the POPDV App is an independent solution that is not related to any specific accounting software, which allows you to populate the POPDV form in just a few steps, while making only minimal adjustments of existing records during the implementation process.

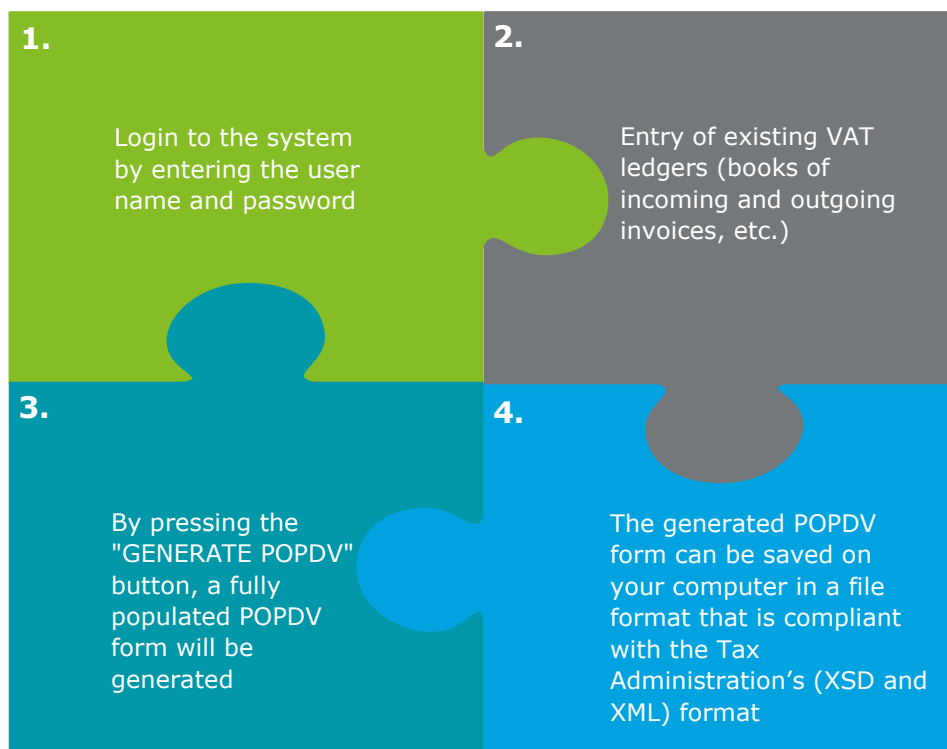

Within the implementation process, Deloitte will analyze the current situation by mapping existing transactions, providing assistance in identifying the proper treatment of these transactions for the purposes of populating the POPDV form and drafting the report with the results of the analysis.

What are the key advantages of the POPDV App?

- 01** Saves time & money
- 02** Flexible, fast and simple implementation process
- 03** Technical and professional support
- 04** Process automation and risk reduction related to populating the POPDV form
- 05** Quick and easy access to your POPDV archive
- 06** The possibility of easily checking whether your suppliers / customers are registered VAT payers
- 07** Full confidentiality and secrecy of your business data
- 08** An overview of the populated POPDV form, with explanations for populating the fields of the POPDV

How does the POPDV App work?

The POPDV App allows you to populate and generate your POPDV form **in just 4 steps.**

Terms and conditions of use

- One-time fee for the implementation process, starting from **EUR 1,600 net of VAT**, depending on the complexity of the specific implementation;
- Quarterly fee for the right to use the software solution, **ranging from EUR 400 - 500 net of VAT (annually from EUR 1,600 to 2,000 net of VAT)**, depending on the volume of data that the application would process for each tax period;
- The fee for the right to use the software solution also includes updates to the application in accordance with regulatory changes and practice development, as well as consultation related to populating the POPDV form;
- The application is accessed on-line, which means that there is no need for it to be installed on the user's computer, therefore, all software updates are performed without the engagement of user resources.
