

Deloitte Legal is a multifaceted, multi-disciplinary team, with individuals trained at some of the best known law firms across the globe. We bring together decades of legal practice experience across all major industries and sectors. We support our commercial clients with a full spectrum of their businesses' legal requirements, including, acquisitions and disposals, financial arrangements, employment matters, as well as tax disputes. We advise, we review, we draft and we manage the matter. Our sector experience includes private equity, financial services, public sector work, telecommunications, retail, mining and construction.

Our experienced mergers and acquisitions team can assist you in understanding the dynamics and issues that frequently arise in M&A transactions. Having a holistic approach ensures that you have the best footing going into the negotiations and in dealing with key legal, commercial and financial issues. We and our colleagues are positioned to provide you with an end-to-end M&A solution, commencing with a valuation, drafting the requisite transactional agreements, all the way through to deal implementation and post merger integration.

We provide general labour law advice, assistance in engaging, managing and exiting of staff, contract drafting/review and negotiation, drafting human resources policies, advising on restraints of trade, retrenchments, performance management and disciplinary action.

Our team assists with legal due diligence investigations, allowing a comprehensive grasp of legal risks prior to proceeding with the transaction. The due diligence process can be structured according to your needs, be it red flag or a fully fledged investigation.

This service offering provides clients with a legal management framework, relevant to their business which enables clients to both manage and avoid risks. Legal Management Consulting can help you by enhancing your legal function strategy, technology and process automation, unlocking value and efficiencies in your business.

With the growing need for companies to remain compliant and accountable, our team's expertise and experience includes commercial transactional advisory, regulatory assistance required in order to implement transactions as well as ongoing support to ensure continuous compliance. From a corporate law perspective, we provide assistance with company registrations, the drafting of all corporate documents, resolutions and any specific opinion work required. In respect of commercial matters, our team provides legal opinions on complex legal matters, general commercial/transactional drafting, ensuring that our clients remain compliant with all regulatory matters and across all industries, any restructure, reorganisation, consolidation and/or negotiated purchase, leveraged buyout, minority investment or partnership, collaborative venture or otherwise.

Our team of experienced lawyers advise on funding solutions and assist clients with the implementation of their funding solutions, including interfacing with the relevant regulatory authorities.

Our tax dispute resolution team is ready and able to assist you with any disputes, objections or queries received from the South African Revenue Service. From requests for reasons, objections, appeals, alternative dispute resolution (for individuals and corporates), we are here to help you obtain the desired outcome.
