

Become an insight-driven organization that deploys strategies, solutions, and services that position your business for the future.

Always on Analytics

Delivering competitive advantage through analytics at every stage of the transformation journey

Today, many organizations struggle to get maximum value from data analytics even before taking on an SAP S/4HANA transformation. Taking the next step with SAP S/4HANA requires an evaluation of your current analytics approach and solutions to ensure you can provide the insights you will need to improve decision-making and drive new levels of intelligent automation, efficiency and service.

Deloitte's Always On Analytics approach has you covered across all key parts of the transformation journey with SAP S/4HANA spanning across the "advise, implement, operate" spectrum. Our approach combines strengths that can only be found at Deloitte, including our worldwide professional network, decades of SAP experience, and deep industry-specific knowledge at the intersection of analytics and business transformation.

Every organization is distinct, which is why Deloitte's Always on Analytics offerings deliver value at every stage of your SAP transformation journey.

Key capabilities

Seamless integration regardless of data solution

HANA based analytics platform that work with the best-of-breed front-end tools

BTP expertise with bottom line metric

Fit to standard clean core activation

Our approach

Each component is available separately or as an end-to-end offering, depending on your needs and where you are in your transformation journey.

Analytics First

To design your vision of an analytics-driven organization. Analytics First provides a methodology for acquiring analytics-driven insights to begin assembling the essential components before adopting SAP S/4HANA.

Analytics Foundation

To build the data analytics environment that SAP S/4HANA and other vital business systems will depend on. Analytics Foundation lays the groundwork for a strong foundation to unlock immediate value and prepare the organization for future value realization.

Analytics Evolution

To operate and develop innovative analytics capabilities by utilizing current and evolving data, as well as analytics solutions. Analytics Evolution is essential to providing advanced analytics, data science, and AI-driven analytics to support strategic decision-making once a solid foundation is established.

Analytics driven benefits

Digital delivery and visual storytelling utilizing advanced analytics capabilities (Predictive analytics, AI driven analytics OT, machine learning, robotics, etc.)

Clean, trusted and relevant real-time, high-quality data to accelerate and improve decision making

Accelerate insights that generate efficiencies, cost savings, and growth while mitigating risks

Design the right analytics foundation components to meet current and future analytics needs.

Modern data platforms that are flexible and scalable to keep up with the pace of the business and data needs

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (“DTTL”), its global network of member firms, and their related entities (collectively, the “Deloitte organization”). DTTL (also referred to as “Deloitte Global”) and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients.
