About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. Please see www.deloitte.com/about for a more detailed description of DTTL and its member firms.

Deloitte provides audit & assurance, consulting, financial advisory, risk advisory, tax and related services to public and private clients spanning multiple industries. Deloitte serves four out of five Fortune Global 500® companies through a globally connected network of member firms in more than 150 countries and territories bringing world-class capabilities, insights, and high-quality service to address clients' most complex business challenges. To learn more about how Deloitte's approximately 245,000 professionals make an impact that matters, please connect with us on Facebook, LinkedIn, or Twitter.

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively, the "Deloitte network") is, by means of this communication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser. No entity in the Deloitte network shall be responsible for any loss whatsoever sustained by any person who relies on this communication.

THE ISSUE

For VEP Scientifica, a global provider of laboratory instruments, connecting more meaningfully with customers has become critical to operating in a highly competitive industry—and essential for thriving in today's rapidly changing digital economy.

THE SOLUTION

To position the organization for the future, VEP Scientifica deployed a cloud-enabled, customer-facing IoT platform that could collect data and offer insights into how customers use the company's laboratory machinery and products—allowing VEP Scientifica to continuously enhance designs and identify new business opportunities.

SAP technologies enabled

SAP® Cloud Platform

SAP® Leonardo IoT capabilities

SAP Fiori®

SAP® CRM 7.03

SAP® ECC 6.07

THE IMPACT

Providing remote customer service and assistance more efficiently—such as helping to control machine parameters

Capturing IoT data to develop stronger customer profiles for use in marketing activities

Building a repository of insights into how customers use machinery, helping improve product design and development

More effectively reaching end customers—promoting new products and services

Bolstering customer loyalty to the VEP brand and its products
