OFFERING DESCRIPTION

Enhance your supply chain with SAP Business Network Supply Chain Collaboration (SCC), previously Ariba SCC. This cloud-based solution improves collaboration and real-time communication between buyers and suppliers, streamlining order management, inventory visibility, and forecast collaboration. Integration is seamless with your existing ERP systems for continued operations. SAP Business Network SCC manages purchase orders, inventory levels, quality, compliance, supplier performance, and risk. It also offers centralized analytics and enhanced visibility, optimizing your supply chain for cost savings, efficiency, and superior risk management.

VALUE STATEMENT

At Deloitte, we provide more than SAP Business Network IBN Supply Chain Collaboration (SCC) expertise; we understand your business needs and strategic goals. Our approach aligns technology with your operational requirements and long-term objectives for tangible results. With deep industry knowledge, we tailor SAP BN SCC implementations to your sector's unique challenges. Our 30-year partnership with SAP ensures cutting-edge solutions and a proven track record. Deloitte's excellence is recognized through awards like the North America SAP Ariba, SAP Fieldglass Services Partner of the Year, Gartner Magic Quadrant 2024 Response ranking in the top percentile. Partnering with Deloitte offers comprehensive transformation services, ensuring your supply chain aligns with business goals and delivers measurable benefits.

THE WHAT?

- SAP Business Network Supply Chain Collaboration (SCC)
- Market Adaptation
- Operational Optimization

THE HOW?

- Our approach prioritizes business processes, using technology as an enabler. Pre-configured solutions help visualize future outcomes, ensuring clarity. Our integrated delivery model enhances collaboration, supported by tools like the SCC Configuration Playbook and Supplier Enablement Plan.

WHY DOES IT MATTER?

Seamlessly connect buyers and suppliers to streamline operations and drive real-time collaboration.

Optimize inventory management and reduce operational costs with advanced, integrated tools.

Proactively mitigate supply chain risks and ensure business continuity, even in uncertain times.

SAP BN SCC empowers your organization to adapt quickly and maintain a strong market position.
