

Extended Workforce Solutions - SAP Fieldglass Implementations & Optimization

TARGET PAIN POINTS

- Complexity of systems and processes.
- Need to reduce risk associated with contingent labor.
- Desire for improved visibility into spend.

BUSINESS BENEFITS

Integrations with other Procurement and Human Capital platforms. ✓

OFFERING DESCRIPTION

Unlock the full potential of the SAP Fieldglass platform with Deloitte's comprehensive capabilities, spanning modules such as Contingent Worker, Services Procurement, and Profile Worker. Our expertise in global implementations and critical integrations ensures a seamless, tailored deployment. We lead both geographical and functional expansions to help your organization scale efficiently, while our in-depth assessments identify optimization opportunities to maximize your return on investment. Beyond implementation, our Operate services provide ongoing support, system enhancements, and continuous improvement to sustain long-term value. Partner with Deloitte to transform your workforce management and achieve superior business outcomes.

VALUE STATEMENT

Unlock the full potential of SAP Fieldglass with Deloitte's deep expertise in end-to-end implementations. Our exceptional knowledge and experience ensure a seamless and successful deployment, tailored to your unique business needs. We prioritize delivering a great user experience, empowering your organization to efficiently manage extended labor and optimize workforce strategies. Beyond deployment, our Operate services provide ongoing support, system optimization, and continuous improvement, ensuring your SAP Fieldglass solution continues to deliver value. Partner with Deloitte to transform your SAP Fieldglass implementation into a strategic advantage that drives operational excellence and maximizes long-term value.

THE WHAT?

- Drive cost savings, governance, adoption, and efficiency.
- Ensure SAP Fieldglass integration within human capital ecosystem.

THE HOW?

- Deloitte offers a wealth of global experience as an SAP certified partner, having successfully completed over 35 Fieldglass implementations across more than 30 countries.
- With strong localization expertise, Deloitte excels in multi-platform integrations, seamlessly connecting SAP tools such as Ariba, SuccessFactors and S/4HANA, as well as non-SAP applications.

WHY DOES IT MATTER?

VMS technology plays a critical role in the success of Contingent Workforce Programs by providing a centralized platform to manage the entire lifecycle of non-employee talent.

To increase visibility in extended workforce programs and mitigate labor and regulatory risks.

To consolidate all contingent workforce, spend data into a single platform, providing a comprehensive view of where and how money is being spent. This transparency helps organizations identify trends, outliers, and opportunities for cost saving.
