Student Cloud Client Success Story: The University of Rochester

Background

This Workday Student Implementation Project deployed Workday Student at The University of Rochester, one of the world's leading private research institutions, and replaced the its 30+ year-old core academic information system. It supports the processes associated with a student's progression from admission through graduation; including, student records, registration, course rosters, grading, advising, and transcripts.
Scope of Work

Scope included a phased, full platform implementation for over **12,000 students** with **13 distinct conversion data sources.**

Business Process Redesign
- Merged seven schools into a single system
- Eliminated divergent processes
- Enabled 24/7 self-service for faculty and students

Academic Foundation
- Academic Unit / Level Configuration
- Academic Calendar
- Student Cohorts
- Programs of Study

Curriculum Management
- Course Catalog
- Class Schedule
- Pre and Co-requisites
- Instructor Eligibility

Student Records
- Academic Policies and Rulesets
- Student Status
- Program Completion / Graduation Transcripts

Academic Advising
- Academic Requirements
- Advisor Assignments
- Student Cohorts

Student Finance
- Charge Items
- Payment Plans
- Waiver Payments
- Refunds
- Billing

Timeline

2020 — 2021

(100% virtual)

Impact

Collaboratively, Deloitte and the University of Rochester brought more than **12,000 students onto Workday Student**, which resulted in:

1st R1 institution to go live

450,000 converted student registrations (for terms prior to 2020)

900 registering for courses within the first five minutes of system opening

12,000+ student registrations (2020-2021 academic year)

14,000+ Automated student transfer credit articulations

Integrations with Technolutions Slate for Admissions, PowerFAIDs for Financial Aid and Blackboard LMS

Converted from legacy:

23,000+ courses

95,000+ course sections (active courses/sections published to online course catalog system)

130,000+ historical student records
