FASB Proposes Guidance on Crypto Assets

This Deloitte *Heads Up* article discusses the provisions of a proposed accounting standards update that may have wide-reaching effects: the accounting for and disclosure of certain crypto assets. Under the proposed amendments, an entity would no longer account for certain crypto assets at historical cost less impairment; rather, an entity would be required to measure such assets at fair value.

Emerging trends in ESG governance for 2023

For audit committees and for boards alike, there's no one-size-fits-all solution to overseeing environmental, social, and governance (ESG) matters—and for good reason. Each company must navigate its own uniqueness related to its organizational structure, global reach, environmental impact, business circumstances, and industry requirements. Further, the broad constellation of topics comprising ESG often doesn't fit neatly into any one board committee's charge. As a result, companies increasingly are opting for ESG governance frameworks that allocate responsibilities to various combinations of board committees and the full board. Read more in this emerging trends report on ESG for 2023.

Thorny topics for the Audit Committee

The audit committee's work is key to trust, but its agenda is developing fast: What are the thorny topics audit committees are wrestling with? How should boards be thinking about forecasts in this challenging economic and geopolitical environment? How can audit committees make judgements with markets shifting so rapidly? What is the audit committee's role in driving to net zero? How will the ISSB's recently announced climate-related disclosure standards affect how audit committees address ESG reporting? How can audit committees manage these with an already full agenda,

including broader risk management responsibilities, oversight of cyber defenses, broader internal controls, and an ever-changing regulatory landscape?

Join our distinguished panel, which includes Janine Guillot, former CEO of **SASB** and former Special Advisor to the **International Sustainability Standards Board (ISSB)**, Tushar Morzaria, Non-executive director **BP plc**, **Legal & General plc**, and Chairman of EMEA Investment Banking at **Barclays plc**, and Theresa Taylor, Board President, **CalPERS**, in discussion with Joe Ucuzoglu, **Deloitte Global CEO** as moderator to learn more.

Challenges for Remuneration Committees

This year's remuneration committee agenda will likely continue to be dominated by topics related to net zero and other ESG matters, including employee well-being. How transparent is executive pay? Are windfall gains included in executive pay? How are remuneration committees balancing the interests of all stakeholders while attracting executive talent? What will be the forward-looking issues for remuneration committees tomorrow?

In this webinar, we are joined by Sheri McCoy, Compensation Committee Chair, **AstraZeneca**, **Kimberly Clark**; Lead Independent Director, **Stryker Corp**; Board member, **Galderma**, **Laronde**; Chair, **Parexel International Corp**. She will also be joined by two other panelists.
