

The 5-Step Climate-led Transformation Framework

Understand your organization's current state, identify and prioritize the material climate related issues facing your business, and define and commit to a climate aspiration/target that suits your business.

Step 1 will allow your organization to understand how to set ambitious yet achievable climate targets for your organization.

Read Step 1:
[Commit to a climate aspiration](#)

Asses the strategic impacts of the climate on your organization, the importance of engaging key stakeholders, identifying the best response options and opportunities, and create a detailed climate implementation roadmap.

Step 2 will help to ensure your organization has an integrated strategy to reduce your carbon footprint and climate-related risks and create value through climate-related opportunities.

Read Step 2:
[Develop a climate strategy](#)

Identify the operating model changes required to realize your climate aspirations and execute your climate strategy.

Step 3 will help support your organization in reflecting on its current state, identifying the future target state, and determining the steps needed to achieve success.

Read Step 3:
[Align the operating model](#)

Identify capability gaps and barriers in your organization, understand your capability requirements, and implement initiatives, tools and metrics to increase your capabilities to deliver your climate strategy.

Step 4 will empower your organization to help achieve your climate goals through targeted and effective capability development.

Read Step 4:
[Enhance organizational capability](#)

Identify what your organization needs to monitor and report and the capabilities and operational changes required.

Step 5 will help enable your organization to disclose according to stakeholder needs, ensure your management has the information needed to adjust strategy over time, identify savings and costs and be accountable for performance.

Read Step 5:
[Regularly monitor and report](#)
