Climate and Decarbonization

Create strategies, unlock insights, and drive decisions related to your carbon footprint. Through process and product analyses, audits, and industry benchmarking, we can help you understand where you stand on energy consumption, decarbonization, and more—leveraging solutions such as SAP Product Footprint Management and SAP Environment, Health, and Safety Management to give you greater control over activities.

We can help you...

- Analyze materiality and define your business objectives
- Assess product lifecycles and provide support with external data sources
- Understand impact and risk through climate assessments
- Create end-to-end strategies for green products/services and other innovations
- Conduct footprint audits and benchmarking

Potential benefits

- Generate new insights and take more meaningful action to achieve your sustainability goals
- Accelerate your organization’s journey to net-zero
- Reduce manual efforts for gathering data, managing information, and generating reports
- Leverage your existing operational data to support your decarbonization ambitions
- Make sustainability reporting more integrated, reliable, and automated

SAP solutions in focus

- SAP Environment, Health, and Safety Management
- SAP Product Footprint Management
Why Deloitte?

**Depth.** Sustainable goals and research requirements have been an important part of the global landscape for the last 15 years, and our multidisciplinary approach can help embed all aspects of sustainability into your ESG journey, from strategic decision making to reporting.

**Breadth.** Industry-leading expertise through Deloitte’s complementary risk advisory, legal, tax, and audit services, as well as Deloitte’s network of global product compliance specialists; a worldwide corps of tax professionals who understand the differing requirements in each region, to help organizations remain compliant.

**Full-service capabilities.** End-to-end solutions and services across the “advise, implement, operate,” spectrum—from concept design to SAP technology implementation to innovation and operations.

**Technical knowhow and leadership.** Extensive SAP S/4 HANA implementation and integration experience involving SAP Product Footprint Management, as well as active involvement in standards-setting forums and communities.

**Focused tools and offerings.** Pre-built content and solutions, including intelligent dashboards for carbon measuring and reporting; example include:

- Intelligent Infrastructure Control Centre (IICC) – Carbon Dashboard
- Deloitte Decarbonization Solutions™
- Carbon Analytics
- D-CARB for Sustainable Planning
