OUTLOOK

Secure success

Organizations today are not closed off, independent entities. They are hyper-connected parts of bigger collaborative ecosystems. While these open ecosystems may feel risky or complex to manage, the greatest risk organizations face is not leveraging the opportunities they present.

Our technology and business specialists put cyber to work for your organization. They use their breadth of knowledge, from finance to customer experience, to amplify cyber's impact and deliver outsized outcomes.

Our powerful solutions simplify complexity, accelerate innovation, and supercharge transformation. That way, you can operate with resilience, grow with confidence, and secure success for your organization.

We understand your challenges & opportunities.

We'll work alongside you with a full range of services to help you foster innovation for secure and sustainable growth.

We are moving quickly on digital transformation, **moving to the cloud and migrating systems.** Can you help us to make sure they are cyber secure?

How do we effectively manage **the convergence of IT and OT** environments?

How do I prepare our organization for and defend against **today's sophisticated cyberattacks?**

What are the **identity access requirements around cloud** or even a hybrid environment?

Our remote workforce means **1,000s of new devices and endpoints on our networks** and systems, how do we track and manage them all?

How do I manage **the complexity of compliance** with the evolving regulatory environment?

What do we need to do to **improve our existing security operations** to match the current threat landscape?

How can we **create a future of trust** across the enterprise and with our customers?

OUTLOOK

We listen to your needs.

Our focus on personal relationships, the breadth and depth of our experience, and deep technology and product innovation enable us to bring stakeholders together for increased interoperability and impact.

Whatever your organization's strategic business priorities, we'll help you improve threat awareness and visibility and strengthen your ability to thrive in the face of cyber incidents.

No matter how complex your situation, we'll always listen and work with you to address your questions and find the right answers for your unique needs.

We advise, implement, and manage cyber solutions where you need us most, across your entire enterprise.

Solutions

Cyber solutions

Deloitte offers a fully customizable suite of cyber solutions and managed services. With a commitment to technological innovation and broad industry experience, our Deloitte global network gives us the insight and experience to face any scenario.

Cyber Defense & Resilience

Detect, respond to, and recover from cyber threats to minimize disruption and strengthen resilience.

Cyber Operate

Run and enhance cyber operations through integrated managed services across people, process, and technology.

Cyber Strategy & Transformation

Align cybersecurity with business priorities to manage risk and enable growth.

Digital Trust & Privacy

Put trust and safety at the heart of your digital experiences.

Enterprise Security

Secure your digital transformation journey from the inside out.

Cyber Defense & Resilience

As cyberattacks grow in frequency and sophistication, you need to outsmart the cybercriminals.

We combine advanced monitoring, analytics, and proactive threat intelligence to detect and neutralize risks before they disrupt operations. We also help modernize your security operations center (SOC) using leading practices, the latest technology, and world-class intelligence—enabling faster monitoring, containment, and response as threats evolve. If an incident occurs, our forensic specialists move quickly to investigate, contain, and reduce impact so you can return to business sooner. Finally, our end-to-end restoration helps re-establish trust and strengthen your cyber strategy, so you emerge more resilient.

Services and solutions include:

- Security Operations
- Attack Surface Management
- Technology Resilience
- Crisis & Incident Response (Cyber Incident Readiness, Response, and Recovery (CIR3))
- Managed Extended Detection and Response (MXDR) by Deloitte

Cyber Operate

Embed 24/7 vigilance and continuous advantage across your operations

Offering flexible solutions, Deloitte's Global Cyber Operate services combine Deloitte's proprietary and ecosystem technologies with our people's industry insights and deep technical skillsets. When clients operate with Deloitte, they embed 24/7 vigilance into their operations—freeing them and their teams to focus on running the business.

Services and solutions include:

- Managed Digital Identity (Digital Identity by Deloitte)
- Managed Extended Detection and Response (MXDR) by Deloitte
- Cyber Threat Intelligence
- Managed Application Security
- Continuous Compliance
- Managed Cloud Security
- Cyber Foundry
- Operational Technology Security
- Attack Surface Management

Cyber Strategy & Transformation

Getting a clear picture of your cybersecurity needs is the first step toward mitigating risk.

Our cyber services help align your cyber standing with your strategic objectives, market activities, regulatory requirements, and risk appetite. Through transforming and developing cyber programs, we help enterprises stay ahead of the evolving threat landscape while driving stakeholder confidence.

Services and solutions include:

- Cyber Strategy
- Cyber Transformation Management
- Cyber Governance & Compliance
- Extended Enterprise
- Software & Asset Management

Digital Trust & Privacy

Trust and Privacy services enhance consumer confidence and data integrity, safeguarding users from harm.

Deloitte's Trust & Privacy services provide consumer confidence and data integrity while safeguarding users and consumers from harm. This includes effective customer and enterprise identity management, governance, regulatory compliance, digital ethics, and advisory support for current and future regulations.

Services and solutions include:

- Privacy Governance & Compliance
- Data Protection & Compliance
- Digital Trust & Online Protection
- Enterprise Identity
- Customer Identity
- Quantum Cyber Readiness
- Digital Identity by Deloitte

Enterprise Security

The more applications you run, the more you need a holistic approach to security.

Deloitte's comprehensive Enterprise Security services reinforce your technical backbone while enabling significant and secure transformation. From robust security architecture and secure development and deployment to end-to-end cloud capabilities, application security, and cutting-edge security for emerging technologies, we help your organization progress towards a resilient digital future.

Services and solutions include:

- Cloud Security
- Security Architecture
- Application Security
- Emerging Technology
- Quantum Cyber Readiness
- Zero Trust
- Operational Technology Security

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (DTTL), its global network of member firms, and their related entities (collectively, the “Deloitte organization”). DTTL (also referred to as “Deloitte Global”) and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.

Deloitte provides leading professional services to nearly 90% of the Fortune Global 500® and thousands of private companies. Our people deliver measurable and lasting results that help reinforce public trust in capital markets and enable clients to transform and thrive. Building on its 180-year history, Deloitte spans more than 150 countries and territories. Learn how Deloitte’s approximately 460,000 people worldwide make an impact that matters at www.deloitte.com.
