**Basis:** Corporate income tax is levied on a territorial basis. Tax is due, with some exceptions, on business income derived from activities performed, property situated, or economic rights used in Paraguay, regardless of the nationality, domicile, or residence of those participating in the operations or where contracts are signed, including some activities performed abroad, unless those activities incurred a foreign corporate income tax at an equal or higher rate than the regular domestic tax rate. Paraguay has not yet begun implementing rules that generally are in line with the global anti-base erosion (GloBE) or “Pillar Two” model rules published by the OECD/G20 Inclusive Framework on BEPS that are designed to ensure a global minimum level of taxation of 15% for multinational enterprise groups with annual consolidated revenue of at least EUR 750 million.

**Taxation of dividends:** Dividends or profits remitted under dividend concepts that are received by individuals, legal entities, and other entities resident in Paraguay or abroad from entities resident in Paraguay are taxable. The tax is withheld by the paying/remitting entity at rates of 8% on payments to resident shareholders and 15% on payments to nonresident shareholders.

**Capital gains:** Capital gains derived from the sale of fixed assets, immovable property, and securities are taxed as ordinary income at the 10% general corporate income tax rate.
