

Business Digital Hub

Deloitte's global platform for international finance and accounting

In response to continued change in the regulatory, technology, and tax landscapes, many multinationals with subsidiaries are considering the appropriate mix of in-house and external resources for managing their operational processes.

Business Digital Hub (BDH) is an easy-to-use global enterprise solution developed to help organizations manage their accounting and statutory obligations.

Flexible and scalable

Cloud

Efficient data sharing

Multi-country and localized

Business insights reporting

Easy-to-use platform

This flexible solution allows organizations to share some (or all) of the processes in the ERP with Deloitte teams via their contracting arrangement. It is a reliable and affordable solution for key corporate operational and functional processes.

BDH combines an ERP system and collaboration workspace with a consistent look and feel, the potential to scale and the ability to customize the solution. In addition, it provides, users with real-time application access together with data collaboration management, and global tracking tools.

A single, integrated portal for communication and collaboration which provides a tool to allow control of business documents and financials

1

Virtual collaborative portal

A centralized platform that offers real-time financial information of a business, access to critical documents, and secure data sharing, designed to enhance transparency and collaboration

Advanced features:

- Centralized collaboration platform that simplifies finance operations.
- 24/7 access to critical documents, invoices, order status, and finance updates in real time.
- Personalized dashboards and KPIs that provide tailored insights into financial performance.
- Facilitates the safe and efficient sharing of business-critical documents in a secure environment.
- Real-time updates on cash flow, order status, billing, and others, improving transparency and reducing inquiries.

- **Advanced workflows for R2R, P2P and O2C**
- **Online reports and KPIs**
- **Document manager**

2

Cloud ERP
