Innovation Program Platform

Enhanced innovation management

Efficiently and effectively manage your innovation initiatives and idea pipeline with Innovation Program Platform, Deloitte's innovation workflow management solution. Based on intuitive, out-of-the-box Salesforce technology, combined with our years of experience and demonstrated success in innovation program design and operations, Innovation Program Platform incorporates proven tools and best practices to improve idea development, enhance the visibility of your innovation efforts, and foster collaboration.

Part of the GovConnect suite of Salesforce solutions

Innovation Program Platform is a GovConnect solution, Deloitte's suite of pre-configured, low-code accelerators built for public sector organizations. Each GovConnect solution is implemented to Deloitte's exacting standards and customized to your needs, extending native platform functionality and enabling your team to do more, sooner, smarter.

ORGANIZE

Replace siloed processes, manual spreadsheets and opaque methodology with a transparent, digitized structure.

Formalize idea capture, evaluation, and advancement with a built-in staged approach.

VISUALIZE

Understand the health of your innovation portfolio at a glance with a clear view of where each initiative stands throughout your pipeline.

Ensure you're achieving your innovation ambitions with the right balance of incremental versus transformational ideas with embedded evaluation metrics.

COLLABORATE

Search for related projects, spot overlapping opportunities and improve communication across teams with a single accessible interface.

Generate greater input around promising ideas with unique crowdsourcing functionality.
