

Deloitte.

The work of creating power, seen in a new light

“The Digital Transformation partnership between Ansaldo Energia and Deloitte leveraging SAP® technology is a clear demonstration of the potentiality of the innovation capabilities expressed by the Ligurian Region, the so-called Basilicon Valley.”

—Luca Luigi Manuelli,
Chief Digital Officer, Ansaldo Energia and
President of the Italian Intelligent Factory Cluster

QUICK STATS

- Countries served: worldwide
- Employees: 3,000

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. Please see www.deloitte.com/about for a more detailed description of DTTL and its member firms.

Deloitte provides audit & assurance, consulting, financial advisory, risk advisory, tax and related services to public and private clients spanning multiple industries. Deloitte serves four out of five Fortune Global 500® companies through a globally connected network of member firms in more than 150 countries and territories bringing world-class capabilities, insights, and high-quality service to address clients’ most complex business challenges. To learn more about how Deloitte’s approximately 245,000 professionals make an impact that matters, please connect with us on Facebook, LinkedIn, or Twitter.

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively, the “Deloitte network”) is, by means of this communication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser. No entity in the Deloitte network shall be responsible for any loss whatsoever sustained by any person who relies on this communication.

THE ISSUE

Helping a major energy generation equipment producer use Industry 4.0 methods to craft the plant of the future.

THE SOLUTION

In December 2017, ABO Data, now part of Deloitte, was selected to be part of a multi-enterprise team to help a major producer of power generation equipment create its Industry 4.0 “Lighthouse Plant” of the future. As the project’s IoT specialist, Deloitte is responsible for identifying the IoT initiatives that best suit the client’s production processes and that will allow the client to be fully aligned with current and upcoming Industry 4.0 trends.

SAP technology enabled

SAP® Leonardo IoT

SAP S/4HANA®

SAP Fiori®

THE IMPACT

IoT and cloud-based advances will help build digitalization, smart asset tracking, predictive maintenance, and other methods into the production of power plant components

Asset digital twin for full remote monitoring

Heterogeneous data standardization

Combination of master data with real-time data
