

Next Gen Capital Management: Deloitte-enabled Fixed Asset Digital Assistant

**Better manage and report on fixed assets
with an intelligent, intuitive, responsive
app-based bot**

Marketplace opportunity/challenge

Fixed asset accountants spend too much time and energy compiling reporting data and executing day-to-day tasks. Businesses must innovate to capture reporting analytics and integration opportunities, and free up an employee's time to perform higher-value activities.

Overview

The Deloitte-enabled Digital Assistant, built for the SAP® Fixed Assets module, can improve the accuracy, transparency and auditability of fixed asset data through robotic process automation, intelligent automation, and cognitive capabilities. This intelligent, intuitive, responsive app-based bot enables finance to focus on pulling analytical insights, making key business decisions, and effectively managing capital projects.

Key features

Chat-enabled personal digital assistant responds to text.

Quickly and easily pull information from across multiple devices, including mobile, in one place.

Simplifies accurate report generation, reducing time spent on report-related day-to-day activities.

Change impacts

1. Greater efficiency and automation provide opportunities for upskilling and allows talent to be realigned to more strategic capabilities.
2. Harnessing more real-time data and generating better insights, finance becomes strategic, value-driven advisors to the business.
3. Next Gen analytics solutions allow stakeholders self-serve access to fulfill reporting needs; finance builds far fewer ad hoc, periodic reports, and becomes a leader in the use of new tools.

Key benefits

Augment key accounting processes.

Efficiently manage the fixed asset life-cycle.

Standard, integrated, and flexible finance processes.

Simplify fixed asset management by reducing time spent on day-to-day tasks and freeing up resources for higher-value activities.

Support accelerated period-end closings.

Retrieve real-time data for business planning and audit reviews.

Empower fixed asset accountants to make smarter decisions faster.
