

Deloitte.

Trustworthy

At enterprise level, we will partner with you to build an enabling Trustworthy AI platform within your organisation that incorporates:

Sustainable Trustworthy AI

Trustworthy AI (TAI) strategy: Build a Trustworthy AI strategy that not only considers regulatory requirements but supports you to deliver on your organisational values and accelerates your technological innovation.

Maturity assessment: Understand the trustworthiness of your AI ecosystem. Gain insight into your maturity across different dimensions such as the:

- Adequacy of your current overall TAI strategy and AI risk management framework,
- Organisational observation of AI legal and ethical requirements, and
- Governance of AI system design and implementation.

AI governance: Develop and implement AI risk management systems and governance to ensure a trustworthy foundation. This includes:

- Clear accountability for impact of AI on customers, employees and society, and
- Processes and controls that support ethical, lawful and technically robust AI.

After creating a detailed inventory of AI assets, including determination of the potential risks and impacts of each asset. We can prioritise model specific solutions such as:

Algorithm Assurance

Risk assessment and validation across the:

- Development and design of algorithms,
- Input and training data used,
- Operation of the algorithm, and
- Outputs and decisions made.

Ultimately ensuring each of the six TAI principles (where relevant) are measured but also sufficiently satisfied.

Algorithm certification and indemnification

Provision of actuarial certification that your algorithms are consistent with your corporate and social objectives, even as they update with new data. Where we provide certification, we can indemnify you against potential liability claims for consequences of AI.

Operational Trustworthy AI

This publication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively the “Deloitte Network”) is, by means of this publication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser. No entity in the Deloitte Network shall be responsible for any loss whatsoever sustained by any person who relies on this publication.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (“DTTL”), its global network of member firms, and their related entities. DTTL (also referred to as “Deloitte Global”) and each of its member firms and their affiliated entities are legally separate and independent entities. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.
