

Deloitte Omnia: Human-led, AI-powered agentic intelligence for Deloitte Audit & Assurance

We have empowered teams with a network of AI agents embedded in everyday workflows in Omnia to support quality and enhance client service.

HUMAN-LED, AI-POWERED DELIVERY

Unified agentic intelligence network One platform where AI agents coordinate and execute workflows

Human-led delivery Deloitte practitioners supervise, validate, apply judgment, and add valuable perspectives

Quality at scale Omnia supports consistent high-quality service globally

A NETWORK OF INTELLIGENT AGENTS

Risk insight Agents analyze information to identify potential risk factors

Workflow acceleration Assists with data extraction, evidence analysis, and documentation

Context-aware support Real-time responses help teams focus on complex matters

RESPONSIBLE SCALING OF INNOVATION

Global reach ~85,000 Audit & Assurance practitioners worldwide

Built to scale Additional AI capabilities will rapidly build on this foundation

Future-ready assurance Embeds governance, data security, controls, and compliance

Scaling innovation to enhance the client experience

Building on more than a decade of investment in Deloitte's audit and assurance digital strategy, Omnia supports a distinctive client experience through:

- Enhanced data driven risk insights and analysis to inform engagement focus
- Efficient and effective evidence processing and documentation to reduce manual effort
- Consistent, high-quality delivery across global operations
- Enhanced insights to support governance and decision-making

Data security and trust

Your data is never used to train AI models. Access is restricted to your engagement team with data remaining within your region. AI outputs are always reviewed and validated by Deloitte practitioners.
