INTEGRATE

A TESTED SUITE OF INDUSTRY SOLUTIONS, ASSETS, AND ACCELERATORS WITH CHANGE MANAGEMENT BUILT IN

Fast-track adoption of cloud ERP, HR, procurement and more

A modern cloud ERP can be critical for growth and innovation, but many organizations struggle with the implementation it takes to adopt one. Traditional approaches can be slow, costly, risky—or all three. Some focus on technical speed without accounting for process and organizational change.

INTEGRATE by Deloitte—designed for SAP Cloud ERP (Public Edition) transformations and optimized for SAP Business Suite—offers a different way. As a focused portfolio of solutions, delivery assets, and accelerators, INTEGRATE can help you transform and go live in as little as eight weeks.

There's more to INTEGRATE than speed. In addition to delivering a comprehensive suite of industry-specific solutions, INTEGRATE:

Can enable a clean, scalable ERP foundation with pre-built integrations and ready AI capabilities

Embeds change management from Deloitte—to help drive adoption and sustain the benefits of transformation

Supports a potentially lower Total Cost of Ownership and an enhanced ability to compete

Leverages years of Deloitte's experience collaborating and innovating with SAP, including more than 130 SAP Cloud ERP implementations—

Leads with a “processfirst, change-first” approach whose tested methods help compress timelines, reduce risk, and speed the delivery of new value

Streamline cloud ERP implementation and accelerate value with SAP Business Suite for finance, supply chain, HR, procurement, sales, and service

Power intelligent insights and decisions using AI and advanced analytics

Manage change with the full suite of proven accelerators, including SAP Cloud ERP (Public Edition), SAP SuccessFactors, SAP Ariba, SAP SCM, SAP Concur, SAP IBP, and industry solutions

TAKE CONTROL OF YOUR JOURNEY

Unify the entire transformation journey from planning through implementation to ongoing support

Design technology change and organizational readiness in parallel using Deloitte's unified approach to strategy, process, and change management

Evolve at scale with support for extensions, updates, and ongoing innovation

INTEGRATE

Delivering real value in as little as 8 weeks

Transform for greater efficiency, enterprise value, and shareholder returns.

Go live in as little as 8 weeks with proven, repeatable, end-to-end methods that balance speed, security, and compliance without sacrificing quality.

Eliminate guesswork, boost innovation, and deliver consistent results.

Control transformation costs, shrink in-house support needs, and reduce TCO with Deloitte's standardized delivery and managed Operate services.

WHY INTEGRATE?

- **Proven accelerators and packaged assets.** Deloitte's methods, learnings, tools, and SAP Cloud ERP experience compress timelines, lower costs, and maintain quality.
- **Integrated delivery model.** Deloitte deploys a unified team of business strategists, process specialists, change leaders, and technologists who work together to eliminate handoffs and accelerate delivery.
- **Industry-specific solutions.** Process templates, pre-built integrations, and domain-specific extensions are tailored to your sector so you can start with 60 to 80% of your target state already configured.
- **Value-added AI assets.** From predictive analytics to intelligent process automation, AI-ready solutions are embedded to unlock AI use cases faster and with lower investment.
- **Specialized capabilities.** We combine a worldwide network of SAP Cloud ERP specialists with deep industry knowledge across finance, supply chain, human capital, and other critical functions to support mid-market organizations.

The Deloitte difference

With INTEGRATE, Deloitte brings a repeatable methodology that can scale to your complexity and ambition—whether you want to build a net-new cloud ERP foundation or deploy a more flexible ERP across your organization.

Delivering services across “advise, implement, and operate” Deloitte can work with you to plan a more effective transformation, implement solutions with speed and precision, and provide ongoing support. The ultimate goal? To help you move from vision to value—driving toward more predictable outcomes, smoother adoption, and a scalable platform for ongoing innovation.

RapidAutoConfigEngine (RACE) for INTEGRATE

Autonomous auto-configuration engine | SAP S/4HANA Public Cloud

RACE is Deloitte's agentic AI-based auto-configuration solution for SAP S/4HANA Public Cloud. It deploys a network of intelligent, goal-driven AI agents - Design, Execution, Validation, and Optimisation that collaboratively translate business requirements into compliant SAP configurations. Unlike static scripts or rule-based tools, RACE reasons, decides, and acts autonomously, aligning natively with SAP's Fit-to-Standard philosophy, SAP Activate methodology, and Clean Core principles.

The result: configurations that are scalable, upgrade-safe, first-time-right, and future-ready.

What sets RACE for INTEGRATE apart:

Deloitte IP embedded at every layer

Leading practices, project experience, and SAP expertise are encoded into the LLM, Knowledge Graph, and Key Data Structures (KDS).

Multi-Agent Framework

Four specialized AI agents (Design, Execution, Validation, Optimization) operate collaboratively — each with a distinct role, objective, and reasoning capability. This mirrors how expert human teams work, but at machine speed and scale.

Public Cloud Native by design

Built specifically for SAP S/4HANA Public Cloud — natively aligned with SAP Activate methodology, Fit-to-Standard philosophy, and Clean Core principles. Not retrofitted from an on-premise approach.

Business Requirement Traceability

Every configuration output is traceable to a signed-off business requirement, ensuring full audit readiness and client accountability throughout the engagement.

Continuously improving

The Optimization Agent and live KDS integration mean RACE for INTEGRATE gets smarter with every engagement — benchmarking, learning, and refining its own outputs.

SAP Public Cloud transformation doesn't have to be slow, risky, or people-dependent. RapidAutoConfigEngine (RACE) for INTEGRATE reimagines how SAP S/4HANA Public Cloud configurations are designed, executed, and optimised — autonomously, intelligently, and at scale.

If your organisation is planning or mid-way through an SAP S/4HANA Public Cloud journey, speak with our team to see how RACE can reduce your time-to-value, protect your Clean Core, and deliver configurations that are first-time-right.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.

Deloitte Asia Pacific Limited is a company limited by guarantee and a member firm of DTTL. Members of Deloitte Asia Pacific Limited and their related entities, each of which is a separate and independent legal entity, provide services from more than 100 cities across the region, including Auckland, Bangkok, Beijing, Bengaluru, Hanoi, Hong Kong, Jakarta, Kuala Lumpur, Manila, Melbourne, Mumbai, New Delhi, Osaka, Seoul, Shanghai, Singapore, Sydney, Taipei and Tokyo.

This communication contains general information only, and none of DTTL, its global network of member firms or their related entities is, by means of this communication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser.

No representations, warranties or undertakings (express or implied) are given as to the accuracy or completeness of the information in this communication, and none of DTTL, its member firms, related entities, employees or agents shall be liable or responsible for any loss or damage whatsoever arising directly or indirectly in connection with any person relying on this communication.
