Growth with impact Government Summit

A Coalesce-affiliated initiative

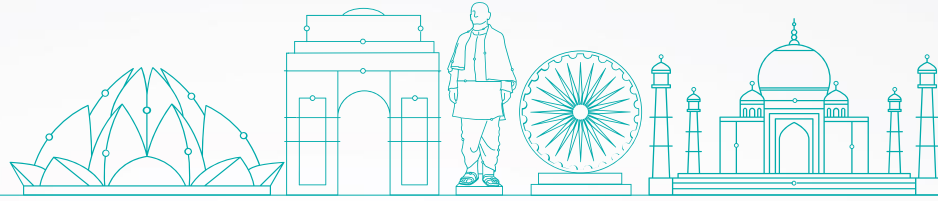

11 -12 December
Leela Palace, New Delhi

India is the world's fastest-growing major economy. We are on track to become a US\$ 5 trillion economy by 2027.

Shri Narendra Modi
Hon'ble Prime Minister of India

Context

India's remarkable journey towards extraordinary economic expansion and digital transformation has gained global significance. Prime Minister Shri Narendra Modi, in recognition of India's immense potential and remarkable achievements in various fields, envisions a nation on a fast track to economic growth, to reach a US\$ 5 trillion economy by 2027.

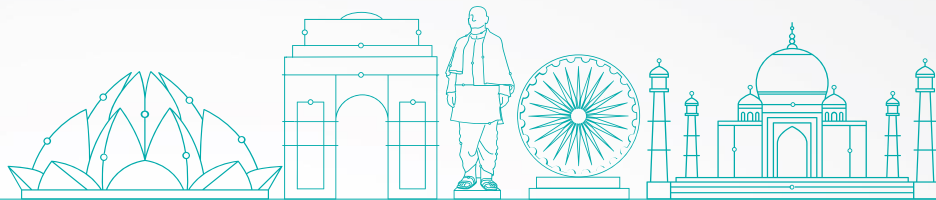

To establish India as a formidable force in the digital and economic landscape, the Government Summit **“Ārohaṇa (आरोहण): Growth with Impact”** stands out as a flagship initiative. This Coalesce-affiliated initiative aims to foster discussions within the government sector across key areas such as digital advancement, infrastructure development, enhancing user experiences, bolstering security, and promoting sustainability. The summit offers a platform for sharing industry insights and acts as a catalyst for driving technology-driven dialogues that can revolutionise the sector in terms of improved service delivery, governance, and policy-making.

Deloitte is dedicated to showcasing world-class practices and sharing case studies that demonstrate our expertise in addressing complex challenges faced by the government sector. We strive to develop innovative solutions to ensure that governments and public services remain connected, resilient, and sustainable.

Covering a spectrum from fiscal and environmental sustainability to digital modernisation and infrastructure optimisation, we have leveraged our extensive experience and insights. Our goal is to connect our proven track record to cutting-edge innovations, empowering you to make informed, strategic decisions that foster economic growth and contribute to creating communities that are better places to work and live in.

Themes

The Government Summit “**Ārohaṇa (आरोहण): Growth with Impact**”, a Coalesce affiliated initiative, has set its sight on the vital components that are propelling India towards becoming a global force to be reckoned with. These elements serve as the essential underpinnings of India's growth, molding the trajectory of the nation's development. The primary goal of the summit is to stimulate in-depth discussions around dynamic topics that embody the very foundations of India's transformation, ultimately leading to digital and economic excellence.

Digital Inclusion

Bridge the digital divide, promoting equal opportunities for citizens to participate in the digital age, regardless of the socio-economic background, geographic location, or other factors.

Digital Public Infrastructure

Interconnected systems, platforms, and standards designed to facilitate and enhance public life, governance, and services in the digital age.

Economic Growth

US\$ 5 trillion economy by boosting industrialisation, investing in infrastructure, enhancing education and skills, fostering innovation, and facilitating a favorable environment for businesses and investments

Service Delivery Excellence

Consistent and efficient provision of public services in a manner that is timely, accessible, transparent, and responsive to the needs of the citizens. This helps to enhance trust, citizen satisfaction, and governance.

Sustainability

Holistic and forward-looking approach to governance that takes into account economic, social, and environmental considerations to ensure long-term well-being and resilience.

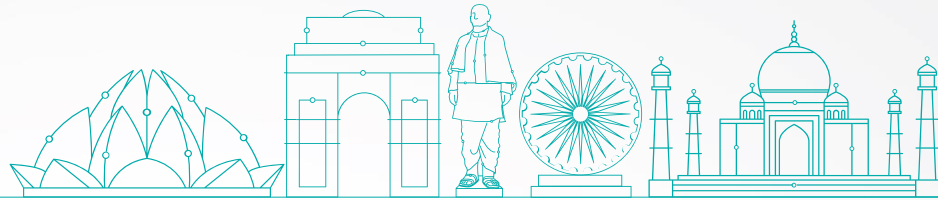

Trust

Trust is paramount for government service experience. Levels of trust and actionable insights help to grow service experience, manage risk, strengthen relationships and earn citizen loyalty.

Key tracks

Vision and experience talks

Government officials, industry pioneers, and think tanks will deliberate on the stated themes in form of panel discussions, vision and experience talks, and power-byte sessions. The sessions are designed to foster conversations on opportunities, delve into emerging trends, and share practical insights and recommendations.

Manthan (Labs)

Manthan are curated labs, roundtables, or workshops to discuss the summit's themes. These sessions are geared toward pinpointing innovative solutions, suggesting policy measures, and nurturing partnerships to address governmental challenges within the specific priority areas.

Points of view (POV)

Perspectives from each of the deliberation sessions and Manthans will culminate in insightful point of views that will be shared with the participants to influence future strategies and policies.

Manthan (Labs)

Manthans are designed to discuss important government focal points, with a focus on how technology can effectively facilitate the advancement of these priorities.

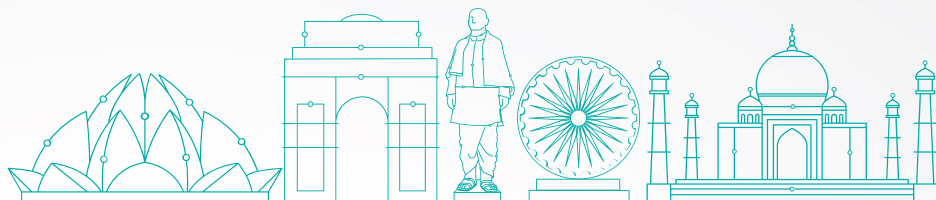

Manthan	Description
 India online: Paving the way for digital commerce	Generate ideas to make commerce truly digital and inclusive, and to formulate specific propositions for governments at central and state levels that can accelerate the adoption of digital commerce for unlocking economic value.
 Innovate, automate, govern: A Gen AI approach	Harness the power of AI to enhance public services, streamline operations, and drive innovation in the government sector.
 Open network: Peer to peer decentralized networks	Evangalise the Beckn-enabled open network with sustainable and equitable access, helping leaders imagine possibilities for the discovery and fulfillment of goods, services, and resources in their respective sectors by implementing open networks.
 DIGIT core: Ease of service delivery	Identify the current operational challenges faced by the Government departments, including both citizen services and internal operations. Explore how DIGIT can be adopted as a potential solution to address these challenges.
 Best in class engineering on cloud	Encourage cross-pollination of ideas and methodologies for having best in class system engineering on cloud.

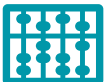

Manthan (Labs)

	Manthan	Description
	Driving economic growth	Gain valuable insights on leveraging data to stimulate innovation, inform policy decisions, and drive economic prosperity.
	Resilient and CyberSurakshit Bharat	Technology boosts connectivity and efficiencies, becoming indispensable. Amid global instability, government must prioritise national security and safety. This lab explores evolving threat and strategies for a 'CyberSurakshit' Bharat.
	Sunbird: An opportunity to create large scale impact	Explore how Sunbird offers a toolbox of innovative building blocks and an approach that has birthed impactful solutions on a grand scale.
	Government experience: citizen services redefined	Enhance citizen interactions and services through cutting-edge technologies and user-centered design, driving efficiency and citizen satisfaction.
	Sustainability: Resilient infrastructure	Achieve shared sustainability goals, such as reducing carbon emissions, enabling green energy usage, conserving natural resources, and promoting economic development with a focus on long-term, sustainable solutions.

Manthan (Labs)

	Manthan	Description
	Emerging technologies: Creating greater economic and societal impact	The Government of India strategically adopts emerging technologies for a digitally empowered society, aligning with initiatives like 'Digital India' and 'Smart Cities.' These technologies enhance connectivity, computational power, and cybersecurity in sectors such as healthcare, education, and finance. This lab explores the impact of emerging technologies on shaping a new India.
	VSK: Unlocking the potential by harnessing the power of data	Serving as a "Force Multiplier," VSK will amplify the capabilities of existing individuals or systems, thereby creating a transformative impact on outcomes. The lab presents an opportunity to delve deeply into how to leverage VSKs to improve decision-making with better information and insight
	NewSpace for Governance: Leveraging space technologies for governance	The focus is on leveraging space technologies to enhance governance and service delivery. By exploring and harnessing the capabilities of space-based solutions, the panel aims to contribute to the overall development and efficiency of government operations.

Manthan partners

Alliance partners

Ārohaṇa (आरोहण): Growth with Impact is a unique opportunity to:

- Be part of this marquee summit and discuss themes that will shape India's future.
- Network with government officials, industry leaders, and think tanks from across the country.
- Share your insights and perspectives on the challenges that India is facing and the opportunities that can be harnessed.
- Learn about innovative solutions and best practices from around the world.
- Develop partnerships and collaborations to advance India's journey to becoming a US\$ 5 trillion economy.
