

Deloitte.

Tax Pragya™

Powered by AI

Authentic. Trusted. Transformative.

1.2M+

Documents, comprising historical judicial pronouncements and unreported judgments, updated daily

LLM

Finetuned and curated knowledge graph (IP) with Deloitte's internal insights, position papers and decades of experience

99.9%

Solved for hallucinations as it is backed by authenticated documents, grounding outputs in established tax principles and optimised algorithm (IP) by expert AI researchers

Agile

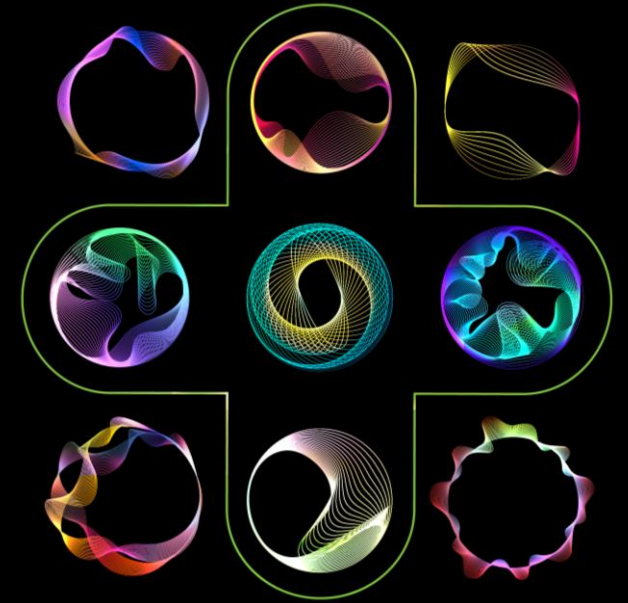

User-friendly features such as Pragya's answer based on contextual understanding, summarisation of cases, effortlessly transfer the cases to the chatbot and interact

2,000+

Internal subscribers used AI-aided research leading to enhanced capacity for adding strategic insights. Transformed talent experience and value delivery to clients

Three

Subscription models (pay per use) to suit diverse needs, including feature-wise credits

Turns hours of research into instant intelligence — unifying data from diverse sources to deliver insights at speed.

Next on the line up!
