Careers at Deloitte.

Be a part of a thriving and dynamic professional services organisation

Deloitte is one of the largest global professional services organisations, serving clients through a globally connected network of more than 457,000 professionals across member firms in 150+ countries.

Deloitte Advisory Services is a multi-disciplinary professional services organisation part of the Deloitte network. Our international capabilities combined with local expertise help our clients succeed, wherever they operate. In our continuous efforts to be the preferred service provider in Sri Lanka, we require proactive, dynamic, and self-motivated individuals with excellent interpersonal skills and a high level of commitment. The details of the position are highlighted below.

Manager - Consulting ESG

As a member of the Operations Transformations - Sustainability & Climate Change team, you will embark on an exciting journey with a group of competent globally aware individuals. The team provides a range of advisory services to clients in the private and public sector on a broad range of aspects for clients who plan to or are already disclosing against established sustainability reporting standards or frameworks.

The focus of the team is on strategic analyses of key concerns in sustainability; climate change, science-based targets, carbon markets, and decarbonization; ESG; circular economy and related disclosures – including strategy development, implementation, data analysis, monitoring and evaluation, governance systems, sustainable finance, stakeholder engagement and reporting.

Key Requirements

- Bachelors Degree in sustainability, environmental studies, business, or other related programs. Masters in relevant field will be preferred.
- Minimum 8 years of relevant experience.
- Demonstrated experience in frameworks (like the GRI, CDP, SASB, TCFD) as well as various ESG rating methodologies.
- Experience in sustainability – areas such as reporting; target setting; climate change; sustainable finance; ESG policy and governance; circular economy; emissions modelling & scenario development etc.
- Good knowledge of concepts in one or more of the following sub-areas: climate change, GHG and Carbon neutrality; decarbonization and energy transitions
- Sustainability certification (e.g., GRI or SASB's Fundamentals of Sustainability Accounting credential a plus)
- Strong data analytics and visualization skills
- Ability to create compelling narrative within ESG and corporate sectors
- Excellent communication skills (oral and written)
- A fast learner, out-of-box thinking and an inclination for problem solving

Key Responsibilities

- Manage client engagements and projects on an end-to-end basis and guide team members in meeting client expectations
- Prepare reports, presentations, participate and lead client discussions
- Collaborate with cross border teams across different industry
- Conduct thorough analysis of client requirements, industry trends, and market dynamics
- Manage client relationships through effective communications and delivery of high-quality solutions
- Proactively identify opportunities to grow the business
- Prepare proposals and responses to RFPs by collaborating across competencies / alliances / service lines
- Build and maintain strong relationships within the climate change and sustainability network
