

Financial Advisory – M&A Valuations & Modeling: Assistant Manager

What impact will you make?

Every day, your work will make an impact that matters, while you thrive in a dynamic culture of inclusion, collaboration and high performance. As the undisputed leader in professional services.

Deloitte is where you'll find unrivalled opportunities to succeed and realise your full potential.

We are well-known for our innovative and collaborative culture, commitment to delivering outstanding quality service to clients and enabling our people to excel in everything they do. Our Valuations practice is fully integrated into the "One Deloitte" agenda, and you will often find yourself working on exciting cross service line valuation engagements.

Benefiting from high levels of exposure and learning from some of the experienced practitioners in the valuations and advisory field, you will expand your skills to grow as a professional in this domain.

The Team

Valuations team provides advisory & support services to the Deloitte local practice in performing a diverse nature of valuation engagements. The team has significant experience in performing valuations of varying complexities for local and global business entities (both private and public) of differing sizes operating across a diverse range of industries and stages of development.

We work as an extension of our Deloitte member firms' valuation practices and provide dedicated support throughout the project lifecycle of our clients. Working on international assignments involving cross-border and cross-service line teams allows you to build your networks across the vast Global Deloitte network and develop understanding of the global valuation standards.

We perform valuations for various financial reporting, tax compliance, transaction support and other commercial purposes. Our core service offerings include business valuation, intangible/IP valuation, purchase price allocations, fairness opinions and audit-review support.

We also have an active international secondment program for our analysts after they gain relevant experience as we believe this plays a crucial role in their overall career and personal development. This includes secondment into valuation practices across our global network of Deloitte member firms.

Work you'll do

A career within our Valuation & Modeling practice will provide a wide & valuable experience in an exciting and dynamic working & learning environment. The role will position you to support on all aspects of a valuation engagement which include the following activities:

- Quickly developing an understanding of the industry, company's business operation and its key operating drivers
- Interpreting and analysing financial statements, annual reports, management presentations, business plans, and other publicly available information
- Performing and assisting experienced team members in executing a wide variety of the valuation exercise (including valuation of the company's business, valuation of IP/intangible assets acquired in M&A transactions, goodwill impairment testing, and valuation for deal support/fund raising, financial planning and litigation purposes)
- Preparing quality deliverables (including valuation models and reports) within agreed timeliness

Financial Advisory – M&A Valuations & Modeling: Assistant Manager

As an Assistant Manager, you will have the opportunity to be involved in diverse nature of engagements where you will:

- Support Deloitte member firms' business valuation practice
- Develop valuation models of varying complexities for local and global business entities (private and public) of differing sizes operating across a diverse range of industries and perform valuation analysis, as necessary
- Analyse and interpret financial and accounting data (including financial statement analysis and review of financial projections, and its underlying assumptions, as necessary)
- Perform industry and economic research and draft industry overview sections
- Prepare various sections of valuation reports, as necessary
- Liaise with engagement team members within the practice, as required
- Work towards tight deadlines, adding value to complex and high-profile projects
- Demonstrate strong business diagnostic skills and the ability to apply a logical and analytical approach to problem solving

Profile

- CFA or ACCA/ACA (qualified in first or second attempt preferred) with good academic background and 1-2 years of relevant post qualification work experience
- Knowledge of IFRS would be an added advantage

Skills Required

In order to be considered for this role, your competencies will cover the broad scope of Valuation services, leveraging your professional background and skills such as:

- Excellent track record and strong academic achievements
- Excellent verbal and written communication skills
- Proven analytical and systematic problem-solving skills
- Ability to quickly interpret and review financial statements and apply basic financial, accounting and valuation skills
- Working knowledge of data sources such as Capital IQ would be an asset
