Clinical Leaders' Course

18 – 21 May 2027

Queenstown

Nurturing the Leaders

Healthy systems need good leadership, and health systems need good clinical leaders. Change Collaborative are committed to building effective health systems.

The transition to a clinical leader can be as fraught with challenge as it is with reward and satisfaction. Clinical training, early leadership opportunities, and self-directed learning are helpful but formal structured training can take you to the next level.

This course is the start of a more rewarding journey. For more than 10 years we have been helping clinical leaders to develop, and to thrive.

We would be delighted to have your participation in Deloitte's Clinical Leaders' Course, where alongside peers, you will explore what it is to be a great clinical leader.

The Course

Our Clinical Leaders' Course provides a foundation for personal growth and networking through both individual and team based learning.

The past few years has redefined how we live and work. We continue to witness leadership instances of resilience, humility and the ability to make hard decisions. What lessons can we draw on in order to become better leaders and grow our own careers as effective and emphatic Clinical Leaders of tomorrow?

Group work and team case studies challenge each participant to combine theory with real life demands of the role to plan, lead, communicate and deal with change and conflict.

Participants will learn, practice and integrate new techniques in small groups exploring case studies. Dynamic classroom sessions will reinforce case study discussion and individual readings.

Establish a lasting network of peers:

- Share ideas and experiences with like-minded peers.
- Use course learnings to collectively address challenges brought forward in participants' case studies.
- Sustainable improvement develops the capability and capacity of staff.

Objectives

Develop greater understanding of:

- The value of the role of a Clinical Leader.
- Personal self-awareness and ways to interact more effectively.
- Building a service and team vision.
- The value of followership in leadership.
- Difficult conversations and dealing with conflict.
- Change, improvement, team dynamics.

Who should attend?

Designed for clinicians starting out on their leadership journey. The programme provides a variety of views on the skills and competencies of leading in a clinical environment.

The programme is for clinicians who have a keen appetite to develop their leadership skills, assume positions of greater responsibility, develop a trusted network of peers and grow their system influence.

Invigorate + Grow

The Clinical Leaders' Course is our foundation course within a graduated suite of programmes for Clinical Leaders wishing to advance their career leading clinicians, services and organisations in health.

Participants in previous CLCs valued the course with an average 'A' grade rating across all topics.

Preparation

Participants will be required to fully prepare for the programme.

Preparations will include

- Writing a 200-300 word case study describing a situation from their present or immediate past role that will provide an opportunity for team exploration and learning. A template structure will be provided. This will need to be completed and submitted in advance of the course.
- Reading 2-3 articles from international journals providing key theoretical frameworks that will underpin class room discussions.
- Participants will be required to complete a team work style preference profile in advance of the course.

Daily routine

Each day begins the evening prior, with teams meeting to review and discuss the next day's case study challenge.

Morning and afternoon classes will typically provide the base knowledge with which to develop a team based response to the case study.

There will be several opportunities through the course of the day for teams to break out and develop their response to scenarios and case studies.

Teams will meet regularly with their Faculty mentor to debrief the day and to consider how they will apply learnings.

Applying the learnings

At the conclusion of the programme, each participant will leave with a personal plan that has 3, 12 and 36 month objectives based on:

- Insights from team work style preference.
- Reflections from case studies.
- Key learnings from each of the programme's streams of leadership, system performance, personal skills and building change platforms.

A 90 minute virtual reunion one month after the course will be provided for some reflection on the application of learnings.
