

Change Collaborative

Clinical Directors' Course

11 – 17 June 2023

Nugget Point, Queenstown

Innovate + collaborate

If you are fortunate enough to be selected to attend this course you will leave it as a better leader and a better person.

Dr Willem Landman

Emergency Medicine Specialist

Nurturing the leaders

Healthy systems need good leadership, and Health systems need good clinical leaders. Change Collaborative are committed to building effective health systems.

For the past 20 years we have been working alongside clinical leaders as trusted advisers, strategists, coaches and improvement experts in New Zealand, Australia and the United Kingdom.

Sustainable performance improvement develops the capability and capacity of staff.

We would be delighted to have your participation in Change Collaborative's Clinical Director Course where over the course of the week, you will join a dynamic group of clinical leaders who aspire to greater things.

The programme

Now in its seventh year, our programme provides powerful personal growth and networking through intensive individual and team based learning.

Diverse points of view challenge each participant to combine theory with real life demands of the role to plan, lead, communicate and deal with change and conflict.

Participants will learn, practice and integrate new techniques in small groups exploring case studies. Dynamic classroom sessions will reinforce case study discussion and individual readings.

The immersive experience allows participants to define their roles as clinical leaders of the future. Lasting peer relationships and a shared commitment to ongoing learning have featured strongly across all programmes since 2017.

Objectives

Develop greater understanding of:

- Emerging leadership models and the role of clinical directors.
- Personal self-awareness and ways to interact more effectively.
- Tools and techniques to enhance personal effectiveness.
- Health system performance, improvement and complex adaptive systems.

Establish a lasting network of peers:

- Share ideas and experiences with like-minded peers.
- Use course learnings to collectively address challenges brought forward in participants' case studies.
- Sustainable performance improvement develops the capability and capacity of staff.

We would be delighted to have your participation in Change Collaborative's Clinical Director Course where you will, over the course of a week, join a dynamic group of clinical leaders who aspire to greater things.

Who should attend?

The programme is designed for clinical leaders who have a keen appetite to assume positions of greater responsibility, develop their skills and lead the delivery of outstanding results.

Participants should have:

- Attained, or be about to attain a position as a Clinical Director, Medical Director or Head of Department, Associate or Deputy.
- Endorsement from senior clinical and/or management within their organisation to attend the Programme.

Change Collaborative will approve applications based on the above criteria and the need to balance participant mix.

Invigorate + grow

The Clinical Directors' Course is our signature course within a graduated suite of programmes for clinical leaders wishing to advance their career leading clinicians, services and organisations in health.

Participants in previous CDCs valued the course with a rating of 3.9 out of 4 and 98% agreed they would recommend the course to their colleagues.

Preparation

Participants will be required to fully prepare for the programme.

Preparations will include

- Writing a case study of 3-4 pages describing a situation from their present or immediate past role that will provide an opportunity for team exploration and learning. A template structure will be provided. This will need to be completed and submitted in advance of the course.
- Reading a number of articles from international journals providing key theoretical frameworks that will underpin class room discussions.
- One or two books may be suggested to provide a common platform of knowledge and serve as a frame for team and course discussions.
- Participants will be required to complete a team work style preference profile and a 360-degree leadership behaviours profile.

Daily routine

Each day begins the evening prior, with teams meeting to review and discuss the next day's case study challenge.

Morning and afternoon classes will typically provide the base knowledge with which to develop a team based response to the case study. There will be several opportunities through the course of the day for teams to

break out and develop their response to the case study.

Each afternoon teams will present their case study and management approach to the situation. They will also juxtapose any changes in the approach from the previous night based on learnings from the day.

Each evening, teams with their Faculty mentor will debrief the day and prepare for applying the learnings.

Apply the learnings

At the conclusion of the programme, each participant will leave with a personal plan that has 3, 12 and 36 month objectives based on:

- Insights from team work style preference and leadership behaviour profiles
- Key learnings from each of the course's streams: leadership, system performance, personal skills and building change platforms.

Participants have the option of 3 or 6 personal coaching sessions over the months following the programme to help consolidate learnings while implementing change once back in their work environment.

A scenic landscape of a river valley with steep, forested mountains under a cloudy sky. The river flows through the center of the valley, surrounded by lush green vegetation. The mountains are steep and covered in dense trees, with some rocky patches visible. The sky is filled with soft, white clouds, and the overall atmosphere is serene and majestic.
