

# Questions Executives and Boards should be asking right now...

## 2. Decide

**What are the key risks that matter and are we managing them?**

## 3. Validate

**How can I find the answer as to our risk profile without having to initiate overly complex and time-consuming risk assessments and do this using virtual methods?**

## 1. Sense

**How are we helping to keep the organisation safe and resilient when we are required to work in a more virtual world?**

## 4. Monitor

**In a rapidly changing world how can I get current daily or weekly risk profile information and evaluate quickly where interventions are required?**
