

Energy and Resources Regulations Update

The following is a list of the new Energy and Resources regulations.

All regulations are available in Indonesian.

1. Regulation : [PP 33/2023](#)
Date : 16 June 2023
Title (Indonesian) : Konservasi Energi
Title (English) : Energy Conservation

Summary

In order to conserve domestic energy resources and improve the efficiency of their utilization, efforts should be made to implement energy conservation by expanding the scope of energy users and energy source users, lowering the energy consumption threshold, regulating the implementation of energy conservation within the scope of the central government and local governments, and developing energy conservation service businesses.

What is meant by Energy Conservation in this Government Regulation is a systematic, planned, and integrated effort to preserve domestic energy resources and improve the efficiency of their utilization. The Government, Regional Government, State-Owned Enterprises, Regional-Owned Enterprises, and Business Entities shall provide access to, distribute, and exchange data and information in the implementation of Energy Conservation.

Matters regulated in this Government Regulation No. 33 Year 2023 on Energy Conservation include:

Implementation of energy conservation

Ease, incentives, and disincentives

Data and information

Guidance and supervision related to energy conservation

This regulation is in effect starting 16 June 2023.

2. Regulation : [Permen ESDM 8/2023](#)
Date : 26 July 2023
Title (Indonesian) : Perubahan Kelima Atas Peraturan Menteri Energi dan Sumber Daya Mineral Nomor 28 Tahun 2016 tentang Tarif Tenaga Listrik Yang Disediakan Oleh PT Perusahaan Listrik Negara
Title (English) : Fifth Amendment to the Regulation of the Minister of Energy and Mineral Resources Number 28 of 2016 concerning Electricity Tariffs Provided by PT Perusahaan Listrik Negara

Summary

To adjust the coal price factor that can affect the cost of electricity supply and accommodate changes in the cost of electricity supply, it is necessary to apply the reference coal price and the cost of electricity supply changes in Electricity Tariff Adjustment. Minister of Energy and Mineral Resources Regulation No. 28/2016 on Electricity Tariff which has undergone several changes, has not fulfilled the legal needs in determining the coefficient of Electricity Tariff Adjustment formula so that changes are needed.

The changes contained in the Minister of Energy and Mineral Resources Regulation No. 8 of 2023 can be found in:

Amendment of provisions in Article 1 regarding description of existing term in related regulation

Amendment of provisions in Article 6 regarding electricity tariff class and electricity tariff adjustment.

Insertion of 1 (one) article, namely Article 7A between Article 7 and Article 8 regarding the process of determining electricity tariff adjustment for the period of July to September 2023.

This regulation is in effect starting 26 July 2023.
