Introduction

The course provides an in-depth understanding of Enterprise Risk Management (ERM) principles aligned with the COSO and ISO31000 framework where participants gain valuable insights into how these principles directly impact financial planning, analysis, and reporting. The course is divided into comprehensive segments exploring ERM fundamentals, risk clusters, global perspectives, compliance requirements, emerging risks using the PESTEL model, and risk appetite versus risk attitude using the RARA model.

Furthermore, the course equips business leaders and professionals with the tools and techniques necessary to navigate complex regulatory environments, ensuring compliance with evolving standards and regulations. By understanding proactive integrated risk management strategies, participants can play a pivotal role in safeguarding organizational assets, optimizing resource allocation, and driving sustainable long-term growth and profitability.

Learning Objectives

- Understand key Enterprise Risk Management (ERM) principles and their application within the COSO framework, focusing on risk assessment, mitigation, and strategic alignment.
- Develop practical skills in identifying, analyzing, and managing organizational risks, integrating emerging trends and compliance considerations.
- Gain leadership insights for effective risk navigation, fostering risk culture, risk attitude, risk appetite, ethics, and advancing ERM strategically.
