

Deloitte.

**Simplify the Complex.
Secure the Future.**
Deloitte SEA Cyber

No longer just an obligation or a collection of tech-focused hygiene practices, **cyber** has grown into a critical function for helping businesses deliver outcomes.

We provide the best-in-class security for your cyber journey to tackle some of the **most pressing** cyber issues of the day

1 Robust planning is paramount for creating cyber strategies that effectively mitigate risk and drive business value

2 Role of cyber in leading digital transformation initiatives – including AI, analytics and 5G

3 Regulatory compliance | Emerging and more stringent regulations on data privacy and AI

6 Increased supply chain risks with widespread vulnerabilities such as URGENT/11 and Log4j

5 Dramatic expansion in attack surface with increased digital services and infrastructure use

4 Continued importance of cloud brings with it complex cyber considerations

7 Relying on a diverse ecosystem of tools and services to create future-facing cyber capabilities and support business value

8 Data analytics and intelligent automation | Leveraging on data-driven risk insights

9 Security education and internal training - Emphasise organizational cultural change and foster better cyber judgment
