January 2026

Tanzania Launches 'IDRAS'

Integrated Domestic Revenue Administration System (IDRAS) to go live on 9th February 2026.

The Commissioner General has announced that the Integrated Domestic Revenue Administration System (IDRAS) is expected to be officially operational from 9th February 2026.

Developed by the Tanzania Revenue Authority (TRA), the new online system will replace the current Taxpayer Portal, aiming to transform tax collection accuracy and improve operational efficiency.

Taxpayers are advised to complete the filing of SDL, PAYE, WHT, and other taxes that are due on 7th February, by the 5th February 2026 before shutdown of the current Taxpayer Portal.

Preparing for the launch of IDRAS

The Tanzania Revenue Authority (TRA) is set to operationalise the IDRAS from 9th February 2026. This marks a significant step towards modernising and streamlining tax administration through advanced digital solutions.

Key actions needed from taxpayers

1. Early Filing of returns

It is anticipated that the current Taxpayer Portal will be shut down at the end of day on the 6th February to allow migration of information ahead of the launch of IDRAS. We advise taxpayers to complete the filing of Pay As You Earn (“PAYE”), Skills and Development Levy (“SDL”), Withholding Tax (“WHT”) and all other taxes with deadlines falling between the anticipated Portal shutdown date and the IDRAS launch date by 5th February. This will help ensure a smooth transition and avoid any disruptions as the new system goes live.

2. IDRAS demonstration and access

• Data migration

All information currently held in the existing system will be carried over to IDRAS before the 9th of February 2026.

To facilitate this process, taxpayers have been instructed to log into the IDRAS Pre-launch website and ensure all their details are registered correctly.

Please follow this link to access the Pre-Launch portal and see the steps to login and begin the process: [Taxpayer Portal](#)

Once you have requested and received the new credentials, we encourage you to log in and explore the platform. This will help you understand the new features and ensure you are prepared for the official launch.

Early action will help prevent delays, complications and inconveniences during the migration.

Key considerations

The IDRAS demo is already live, allowing users to familiarise themselves with the new system. However, it is important to distinguish between changes that will be considered final and those that will be treated as tests once the official

system is launched.

- Any changes/updates to the company registration details will be treated as final and will be reflected in the official IDRAS system.
- Any returns filed or similar actions performed in the demo environment will not carry over to the official IDRAS launch.

“Complete the filing of SDL, PAYE, WHT, and all other taxes before system shutdown.”

Critical take-aways

- Review your upcoming tax obligations and ensure all filings due before 9th February are submitted before shutdown of the taxpayer portal.
- Access the IDRAS pre-launch portal to check your company registration details and update any necessary information ahead of the launch.
- Take advantage of available training or support resources through the test link provided [here](#).
- If you have any questions or require assistance, please contact your usual TRA representative or see the contact list attached.
