

Grow your business

with Deloitte & SAP’s Mining, Metals & Minerals (MMM) in a Box:
A pre-configured SAP S/4HANA® solution tailored for your industry.

Improve cost efficiencies, streamline operations and drive productivity in your business with Mining, Metals & Minerals (MMM) in a Box.

Our pre-configured best-in-class SAP S/4HANA solution facilitates a **30% to 50% shorter timeline** with savings on SAP implementation and operating costs. Driving improved user adoption and engagement from day 1 will aid in maximising your return on investment.

Leveraging Deloitte’s **20+ years experience** implementing SAP in the industry, the solution is

configured for **different commodity types** through global industry best practice, specifically **for the African market**.

Why change now?

Your **mid-sized** business will gain access to a world-class product at an **affordable price**, modernising your SAP landscape and setting you up for future success: **efficiently, competitively, sustainably**.

How will you benefit?

Accelerate delivery by **30-50% to drive productivity** through a complete set of refined, integrated scenarios.

Streamline operations with improved, standardised processes tailored specifically for your industry.

Improve cost efficiencies with reduced overheads through a set of accelerators without jeopardising quality.

Leverage global best practice to address unique business challenges across mining and related industries.

Ensure reporting visibility for data-based decision-making to transform your business.

Reduce implementation risks through a demonstrated repeatable approach.

Why choose Deloitte?

Designated by SAP as a **Global SAP Services Partner**, **Deloitte has been on the forefront** of assisting companies around the world in leading the delivery and change management of SAP implementations. We are uniquely positioned to help businesses in their efforts to attain profitable growth and supply chain integration. Our close collaboration with SAP means we know how to deliver effective business solutions with customer concerns top of mind.

Pricing from **R7,051 to R22,530** per FUE per month, excl. VAT*

**Terms and conditions apply. Detailed costing will be confirmed based on the agreed amount of users per client.*
