

Deloitte School of Actuarial Excellence

Practical training for actuarial employees - Introductory General Insurance Modules

Deloitte currently has a **diverse team of insurance experts.**

We have **4 short-term insurance practicing certificates.**

Our actuarial consulting team is the **largest on the African continent**, with over 200 actuarial professionals and boasts individuals with **highly developed technical skills and business acumen. As such, we are perfectly positioned to present high quality, practical actuarial training to the market.**

EXEMPLAR Suite is our leading edge reserving and capital modelling software which will be used in the training. The trainees will receive a demo version of the software for a limited period of time.

1
