# A<sup>3</sup> Adapt. Adopt. Accelerate

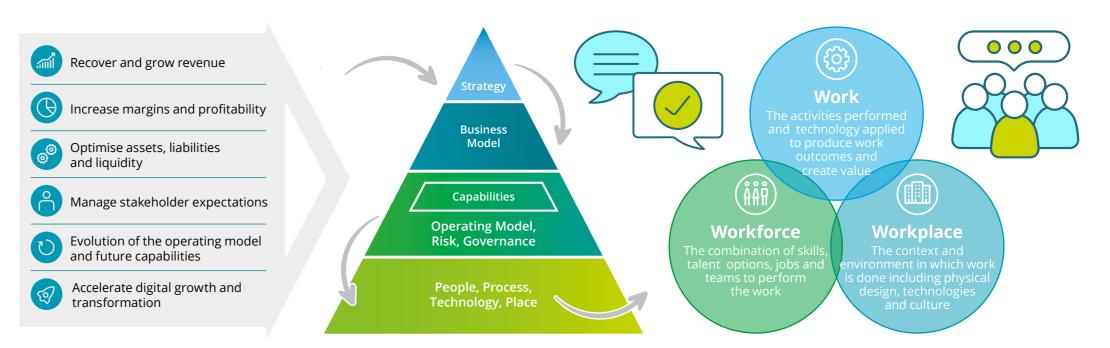

An integrated approach to strategically navigate the recovery from COVID-19 by navigating risk, reimagining our real estate and accelerating the future of work.

Business leaders need to take the window of opportunity to "reboot" their organisations.

Organisations must identify where to adopt, adapt and accelerate, considering the impact on their strategy, risk management, real estate and/or people practices to accelerate them to sustainability and long term success.

Strategy re-set. An intentional strategy for a post-COVID future built on capabilities taking the organisation where it wants to go.

**Business**, governance and risk led operating model design. Establishing the

outcomes that will drive value creation, to ensure an optimal businessand operating model, risk mitigation, digitally enabled capabilities.

#### Future of work-led organisation redesign.

Focus on redesigning the activities performed, skills and technologies needed and the environment in which work gets done.

### Activation and continuous improvement. Adopt new ways of working, adapt tools, processes and policies and leverage

supporting platforms.

## Thrive

Redesign people

practices

The redesign of activities, culture, policies and practices related to the workforce
