

South African Renewable Energy Independent Power Producer Programme (REIPPPP)

Financial Modelling

Construction & development of dynamic financial models with standardised & tailored outputs

Graham McLeish

Africa Modelling Leader: Valuations & Modelling, Financial Advisory

Risk Advisory

Technical design reviews, Asset Retirement Obligations (AROs), Renewable Energy Certificates (RECs), Extended Producer Responsibility (EPR), Life Cycle Assessments (LCA)

We **build dynamic financial models** geared towards renewable energy projects that, facilitate **tariff optimisation**, produce a set of **forecast financial statements** and cater for various **funding structures**.

Our models are constructed in line with **local tax legislation** requirements as well as **IFRS**.

We have also **independently reviewed** over 60 financial models (submitted in previous South African REIPPPP rounds).

Our review procedures include the verification of:

- Model integrity
- Accuracy of assumptions & inputs
- Compliance with local tax legislation
- Compliance with IFRS

Legal

Legal contracting solutions
