Dividends

Subject to certain exceptions, local dividends are fully exempt from income tax in the hands of the recipient. However, see comments below in respect of WHT on dividends in the form of a dividends tax. Foreign dividends are subject to income tax in the hands of a South African shareholder, but exempt if the shareholder holds at least 10% of the equity shares and voting rights in the foreign company declaring the dividend. Foreign dividends received by individuals from foreign companies are taxable at a maximum effective rate of 20%. No deductions are allowed for expenses incurred to produce foreign dividends.

Tax-free investments

Amounts received by or accrued to an individual in respect of particular prescribed investment instruments and policies are exempt. Contributions to these prescribed investments/policies are subject to an annual limit of R36 000 effective from 1 March 2020 (2019: R33 000). Currently, a R500 000 lifetime limit applies.

Remuneration for services rendered outside South Africa

With effect from 1 March 2020, South African residents working abroad for more than 183 days over a 12-month period, and for a continuous period of more than 60 days during that period, are exempt from income tax on remuneration for services rendered while abroad, to the extent the remuneration does not exceed R1.25 million. Government proposes to allow the foreign taxes withheld on such remuneration as a credit against the employees' tax ("PAYE") payable in South Africa (but further workshops will be held to address any administrative concerns).

Deductions and Tax Credits

Medical expenses

- Medical scheme fees tax credit: Monthly credit of R319 each for the taxpayer and his/her spouse (or first dependant), and a further R215 for every additional dependant.
- Taxpayers 65 years (or older) and taxpayers with a disability (taxpayer, spouse or child):
 - 33.3% of the amount of contributions to a medical scheme as exceeds 3 times the medical scheme fees tax credit.
 - 33.3% of qualifying medical expenses paid and borne by the individual.
- Taxpayers under 65 years:
 - 25% of the aggregate of the amount of fees paid to a medical scheme as exceeds 4 times the medical scheme fees tax credit and qualifying medical expenses as exceeds 7.5% of taxable income (before medical deduction and excluding retirement lump sum benefits).

Retirement fund contributions

- A taxable fringe benefit will arise in the hands of the employee in relation to an employer's contribution to a retirement fund.
- Individuals will be able to claim a deduction limited to the lesser of:
 - R350 000; or
 - 27.5% of the higher of their remuneration or their taxable income, *(both excluding retirement fund lump sums and severance benefits); or Taxable income*(excluding retirement fund lump sums and severance benefits) before the inclusion of taxable capital gains

Any excess may be carried forward to the following year of assessment.

*Taxable income as determined before allowing a deduction in respect of contributions to retirement funds, foreign tax deductions and donations.

Donations

Donations to certain approved public benefit organisations (PBOs) are tax deductible. The tax deduction is limited to 10% of taxable income before donations (excluding retirement fund lump sums and severance benefits). These organisations include most welfare, health care, education and development, land and housing, conservation, environmental and animal welfare organisations, with certain exceptions. Any excess may be carried forward and is treated as a donation made in the subsequent year.

Benefits and Allowances

Travel allowances

The following table sets out the three components of the rates which may be used in determining the cost of business travel, where actual costs are not used. PAYE is withheld from 80% of travel allowances (20% is allowed in some circumstances):

Value of the vehicle (incl. VAT) (R)	Fixed cost (R p.a.)	Fuel cost (c/km)	Maintenance cost (c/km)
0 – 95 000	31 332	105.8	37.4
95 001 – 190 000	55 894	118.1	46.8
190 001 – 285 000	80 539	128.3	51.6
285 001 – 380 000	102 211	138.0	56.4
380 001 – 475 000	123 955	147.7	66.2
475 001 – 570 000	146 753	169.4	77.8
570 001 – 665 000	169 552	175.1	96.6
Exceeding 665 000	169 552	175.1	96.6

- * If the travel allowance is applicable to a portion of the tax year, the fixed cost is reduced proportionately.
- ** Where the travel allowance is based on actual distance travelled by the employee for business purposes, no tax is payable on an allowance paid by an employer to an employee, up to the rate of 398 cents per kilometre regardless of the value of the vehicle. This alternative is not available if other compensation in the form of an allowance or reimbursement (other than for parking or toll fees) is received from the employer in respect of the vehicle.
- *** The logbook method to claim business travelling expenses is compulsory.

Company car fringe benefit

Determination of the taxable value for all vehicles provided by an employer is as follows:

No maintenance plan	3.5% per month x determined value (retail market value as determined by Regulation)
Maintenance plan	3.25% per month x determined value (retail market value as determined by Regulation)
Held under operating lease (per s23A)	Costs incurred by employer under the lease plus fuel costs

The benefit will be reduced by any consideration paid by the employee (other than consideration relating to insurance, licensing, maintenance or fuel) for which there are specific deductions available.

On assessment, the fringe benefit is reduced for business use where an employee can furnish accurate records of distances travelled for business purposes and total distances travelled. The taxable fringe benefit is also reduced where the employee has borne the full expenditure relating to maintenance, licensing, insurance or fuel in relation to the company car, and has kept accurate details thereof. 80% (or 20% in certain instances) of the fringe benefit will be included in remuneration for PAYE purposes.

Residential accommodation

The taxable fringe benefit to be included in gross income will ordinarily be calculated by applying a prescribed formula, but it will comprise the lower of the formula and the cost to the employer in circumstances where the employer supplied accommodation that was obtained under an arm's length transaction with an independent third party. Any consideration given by an employee for such accommodation may reduce the value of the taxable benefit which is subjected to tax.

No taxable fringe benefit will apply in certain circumstances, including in the case of accommodation provided to employees who are away from their usual place of residence within South Africa or their usual place of residence outside South Africa (i.e. in respect of expatriate employees), subject to certain conditions and limitations.

Subsistence allowances

Subsistence allowances are tax-free if they are granted to an employee who is obliged to spend at least one night away from his usual place of residence whilst on business and if they do not exceed the following amounts:

Meals and incidental costs per day (Re-public)	Meals and incidental costs per day (outside Republic)	Incidental costs per day
R452	Varying amounts	R139

Interest-free or low-interest loans

The difference between interest charged at the official rate and the actual amount of interest charged, is to be included in gross income as a taxable fringe benefit.

Retirement Fund Lump Sum Withdrawal Benefits

Lump sum benefits in consequence of the withdrawal of membership of a retirement fund, including amounts assigned in terms of divorce settlements in certain circumstances, other than death/retirement lump sum benefits, are taxed according to the following table:

Taxable income from withdrawal benefits	Tax payable
R0 - R25 000	0% of taxable income
R25 001 - R660 000	18% of taxable income above R25 000
R660 001 - R990 000	R114 300 + 27% of taxable income above R660 000
R990 001 and above	R203 400 + 36% of taxable income above R990 000

Note: Taxable income is cumulative and includes all lump sum payments whether on retirement (after 1 October 2007) or withdrawal (after 1 March 2009), or a severance benefit (after 1 March 2011).

Severance Benefits and Retirement Fund Lump Sum Benefits

Severance benefits are lump sums received by employees from employers in respect of the relinquishment or termination of employment for the following reasons

- Attaining the age of 55 years.
- Due to incapacity through sickness, accident, injury or infirmity of mind/body.
- Retrenchment due to cessation of trade or general reduction in staff.

Severance benefits and lump sum awards following death, retirement or retrenchment are taxed according to the following table:

Taxable income from severance benefits	Tax payable
R0 - R500 000	0% of taxable income
R500 001 - R700 000	18% of taxable income above R500 000
R700 001 - R1 050 000	R36 000 + 27% of taxable income above R700 000
R1 050 001 and above	R130 500 + 36% of taxable income above R1 050 000

Note: Taxable income is cumulative and includes all lump sum payments whether on retirement (after 1 October 2007) or withdrawal (after 1 March 2009), or a severance benefit (after 1 March 2011).

Use of assessed losses

The offset of assessed losses carried forward is limited to 80% of taxable income, for years of assessment commencing on or after 1 January 2021.

Employees' Tax (PAYE)

Employees' tax is withheld by an employer from any remuneration paid to an employee.

Note: All allowances paid to an employee (except subsistence allowances and fixed and/or reimbursive travel allowances) are subject to employees' tax in full or according to a formula.

Skills Development Levy (SDL)

SDL is levied at 1% on remuneration payable. Employers with annual payroll of less than R500 000 are exempt, as well as certain approved PBOs. Generally, the total value of remuneration subjected to PAYE is used to calculate the levy, but it excludes amounts paid to independent contractors, severance benefit, reimbursement payments to employees, pensions paid and remuneration of learners under contract.

Unemployment Insurance Fund (UIF) Contributions

UIF contributions are payable monthly by employers on the basis of a contribution of 1% by employers and 1% by employees, based on employees' remuneration below a certain amount (currently R14 872). Employers not registered for PAYE or SDL purposes must pay the contributions to the Unemployment Insurance Commissioner.

Employment Tax Incentive (ETI)

Employers of qualifying employees (e.g. employees between the age of 18 and 29 years) may be eligible for a rebate, against the employees' tax payable as follows:

- First twelve months of qualifying employee's employment:
 - 50% of an employee's monthly remuneration up to R2 000 per month. (This would only be applicable if the minimum wage prescribed by the relevant sector determination or bargaining council agreement was less than R2 000 per month).
 - For an employee with a monthly remuneration of between R2 000 and R4 500, the incentive will be R1 000 per month.
 - For employees with monthly remuneration of between R4 500 and R6 500, the value of the incentive will be between R1 000 and zero per month, as determined in terms of a formula.
- Second twelve months of qualifying employee's employment: Half of the amounts mentioned above.

Other Taxes, Duties and Levies

Withholding Taxes (WHTs)

Dividends tax

Dividends tax (DT) must be withheld from dividends at a rate of 20% by local companies and foreign companies on shares listed on the Johannesburg Stock Exchange (JSE). The rate may be reduced in terms of Double Taxation Agreements (DTAs). Exemptions apply for domestic retirement funds, PBOs and domestic companies. Certain requirements have to be complied with in order for the exemption or reduced rate to apply.

Other payments to non-residents#

Royalties*	15%
Interest**	15%
Foreign sportsmen and entertainers who perform in SA	15%
Fixed property acquired in SA from a seller that is a non-resident:	
<i>If the non-resident is a natural person</i>	7.5%
<i>If the non-resident is a company</i>	10%
<i>If the non-resident is a trust</i>	15%

Note: WHT is not payable on fixed property if the total amount payable for the immovable property does not exceed R2 million.

Certain of these rates may be reduced by DTAs.

* The WHT on royalties is a final tax levied at 15%. The WHT does not apply to amounts derived by non-resident companies from a branch or agency in South Africa, or to amounts relating to the use of certain copyrights in printed publications, or royalties paid to any controlled foreign company.

** Certain exemptions apply (e.g. government bonds, listed debt and local collective investment schemes).

*** South Africa does not levy withholding tax on service fees. Certain transactions may however give rise to a requirement to formally report the arrangement to SARS.

Capital Gains Tax (CGT)

Inclusion rates*	
Individuals, special trusts and individual policyholder funds	40%
Other taxpayers	80%

Exclusions	
Individuals, special trusts and individual policyholder funds	R40 000
Companies	nil
Individuals in year of death	R300 000
Primary residence exclusion on the disposal of a primary residence	R2 million gain/loss
Small business assets (persons over age 55 and market value of assets not more than R10 million)	R1.8 million

Value-Added Tax (VAT)

Rates: 15% and 0%

The VAT registration threshold is R1 million of taxable supplies per annum. A vendor making taxable supplies of more than R50 000, but not more than R1 million per annum, may apply for voluntary registration. Non-residents that carry on an enterprise in South Africa are required to register. Certain supplies are zero-rated or exempt from VAT.

Provisional Tax

A provisional taxpayer is a company or any person that earns income other than remuneration or an allowance/advance payable by the person's principal. It also includes any person who earns remuneration from an employer not registered for PAYE.

Provisional tax payments (made twice per annum) represent tax on expected income. For taxpayers with taxable income of less than R1 million, the second provisional payment must equal the lower of the "basic amount" (calculated with reference to the previously assessed income for the latest tax year) or 90% of actual taxable income. For taxpayers with taxable income of more than R1 million, an estimate that is equal to at least 80% of the taxable income for the year is required for the second provisional tax payment. A penalty will be levied if the estimate does not meet the required percentage of actual taxable income.

Donations Tax

Value of donation	Rate
R0 to R30 000 000	20% on the value of property donated
Exceeding R30 000 000	25% on the value of property donated

Exemptions include (among others): R100 000 per annum (individuals), donations between spouses, donations to approved PBOs and recreational clubs, donations by public companies and donations between South African resident group companies, etc.

Estate Duty

Value of estate	Rate
R0 to R30 000 000	20% of the dutiable amount of a deceased estate
Exceeding R30 000 000	25% of the dutiable amount of a deceased estate

Estate duty is levied on the dutiable amount of a deceased estate (property of residents and South Africa property of non-residents). Deductions include: a standard deduction of R3.5 million per estate (R7 million for a married couple) and certain other deductions, the most important of which is the deduction for property accruing to a surviving spouse.

Transfer Duty

Paid on acquisition of immovable property where the transaction is not subject to VAT. Transfer duty is also payable on the acquisition of residential property through an interest in a company or trust.

Securities Transfer Tax (STT)

STT is a tax levied on the transfer or cancellation of any listed and unlisted security. The STT rate is 0.25%.

Sugar Tax/Health Promotion Levy

The Health Promotion Levy, which taxes sugary beverages, was implemented on 1 April 2018. The levy is 2.1c/gram for sugar content in excess of 4g/100ml (the first 4g/100ml being levy free). It is proposed that this levy will increase to 2.21c/gram for sugar content in excess of 4g/100ml from 1 April 2019.

Carbon Tax

South Africa's carbon tax became effective on 1 June 2019. The first payment is due in July 2020, which will cover liable emissions from 1 June 2019 to 31 December 2019.

The carbon tax rate will increase by 5.6 per cent for the 2020 calendar year. Accordingly, the carbon tax rate will increase from R120 per tonne of carbon dioxide equivalent to R127 per tonne of carbon dioxide equivalent.

Exchange Control

National Treasury has proposed a modernisation of the current foreign exchange system which will be phased in over the next 12 months. All transactions will be permissible except for a risk-based list of capital flow measures which will mainly affect legal entities.

The risk-based list of capital flow measures will include:

- South African corporates will not be allowed to shift their primary domicile except under exceptional circumstances and as approved by the Minister;
- Approval conditions for corporates with a primary listing offshore will be aligned to current foreign direct investment criteria;
- Export of intellectual property for fair value to non-related parties will not be subject to approval.

The above list is not exhaustive.

The following has been proposed for individuals:

- Transfers in excess of R10 million will result in a more stringent verification process by SARS. There will be no limits on individuals externalising funds provided the necessary tax clearance has been obtained.
- Natural person residents and natural person emigrants will be treated identically and the current exchange control emigration concept will be phased out and be replaced by a SARS verification process.
