

**DELOITTE CLEAN DATA ASSETS POWERED BY SYNITI**

## Fast, Powerful and Trusted Data Migrations

Deloitte and Syniti have collaborated for more than a decade to help our clients improve their strategic position using data. We improve competitive advantage, accelerate speed to market, optimize savings and cash flow, support MA&D, and fuel SAP S/4HANA® development.

Honed over hundreds of successful SAP S/4HANA implementations, the suite of Deloitte Clean Data assets tied in with Syniti's end-to-end migration capabilities will help clients to expedite the delivery of data activities from advice to operate stages of the Project.

## EXECUTE YOUR MOST CRITICAL BUSINESS INITIATIVES WITH CONFIDENCE.

When your migration and consolidation projects are mission-critical, you can rely on Syniti's ADM toolset and Deloitte's Clean Data delivery to enable accurate, optimized, and actionable data.

### Mergers and Acquisitions

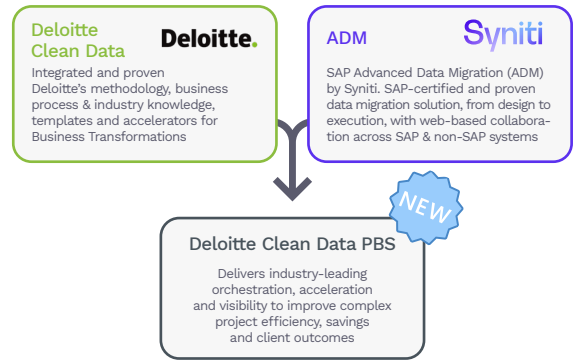

Making an acquisition or divesting a division or product line? Deloitte's M&A Services market dominance along with Syniti ADM solution, continue to be the data migration package of choice for hundreds of billions of dollars of transactions.

### Moving to the Cloud

Migrating your global HR solution to the cloud? Moving your procurement or PLM solution to a SaaS platform? Our source- and target-agnostic software delivers every time.

### SAP Data Migrations

- SAP S/4HANA (RISE)
- SAP SuccessFactors
- SAP Central Finance
- SAP Ariba

## KEY BENEFITS

Experience flawlessly transformed and optimized data. Every time.

### Accelerated Deployment

More than 65 pre-built data migration objects, 500+ data quality rules, documentation, data reconciliation and dashboard reporting, plus accelerator content built-in for common sources such as SAP ECC and Oracle JDE.

### Faster Migration Waves

With a learning platform that allows you to reuse mappings, harmonization techniques, and more; each successive migration wave becomes easier, faster, and lower risk.

### Optimized Data Quality, Included

Every Syniti migration project delivers dramatically improved data quality, resulting in a centralized and trusted data landscape proven to deliver an 8-month payback.

### Complete Project Transparency

Gain complete insight into your data migration project with dashboards that track every aspect: including timelines, data quality scores, and more.

### Enhanced ROI

By combining all processes, data, information and intellectual property into SAP ADM, clients saw 45 to 60% increased efficiency and reduced costs with D-Dash/Syniti.

### Accelerated Downstream Projects

Every decision about data rules, business processes, team members, roles, mappings, and more is available for your next migration, master data management, or data governance project.
