

IT Spend risk advisory

- ✓ Measure your IT Spend and cost drivers to better control them
- ✓ Better Manage your IT spend by leveraging on your capabilities
- ✓ Achieve Short- and Long-term objectives

WHY SHOULD IT SPEND BE A FOCUS?

Competitiveness

Pressure to remain competitive and invest in digital initiatives is **increasing across** industries.

New Business Models

Technology shifts, budgets and the investment process are subject to increased **scrutinization** and **evolution**.

Merging Investment Decisions

Only 52% of baseline organisations **have a technology investment decision-making** process jointly owned by IT and the business.

IT and Business Merging

It is important for technology teams to **work hand-in-hand** with business functions to co-create value

Large spend and lack of transparency

IT is a relatively large spend in companies and there is a **lack of transparency** of the spend and value of IT initiatives impact.
