

Deloitte.

Ready for your **e-invoicing journey?**

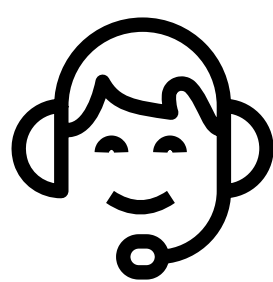

BOARDING PASS

E-invoicing is taking off, not only in Belgium, but also across the EU following the ViDA initiative. In this light, Deloitte offers its **E-invoicing launch line**.

Navigating the complexities of the e-invoicing mandate can be challenging, especially with new requirements. Even after starting solution implementation, some technical, operational and practical questions might arise.

To keep you afloat during these challenging times, Deloitte offers its **on-call support for a smooth e-invoicing start**. This includes, but is not limited to:

- *Guidance on legal requirements and how to translate these into your business context and system environment;*
- *Guidance on Peppol requirements and data mapping;*
- *Solution and Implementation related queries;*
- *Practical insights on market evolutions and specific use cases;*
- ...

Questions can be asked via e-mail/phone. We aim to provide a response within max. 3 working days. We offer a bucket of hours for use, eliminating the need for fee negotiation per question and ensuring efficient service.
