

## ESG HOTLINE

Flexible service for those who need to respond quickly and reliably to sustainability requirements

### Contact us if:

- You want to quickly verify the interpretation of reporting requirements and do not have time to search for answers?
- You need to confirm the accuracy of calculations and indicators?
- You want your ESG report to meet auditors' expectations?
- You are debating when and how to start implementing ESG principles within your organization?
- You need to ensure that your decisions and communication are based on up-to-date and verified information?

### How we can help you with:

- Ad hoc consultations and methodological recommendations regarding audit requirements
- Assessment of the relevance of key KPIs
- Review of internal documents, draft disclosures, or reports
- Recommendations for suitable software solutions for managing ESG data
- Sharing verified templates, checklists, and best practice examples
- Targeted desk research and recommendations based on current regulation
- Quick validation of data and information

### Why collaborate with us:

- Flexible service delivery tailored to your needs
- Cost efficiency and reduced workload for your internal team
- Access to an international network of experts and up-to-date insights
- Reduced risks within due diligence processes

**The ESG Hotline provides you with immediate access to experts who can help you quickly resolve specific questions related to ESG. Thanks to our expertise, you will receive practical, reliable answers that enable you to act fast, efficiently, and with confidence.**
