

Private Clients Legal Services Czech Republic

Our services provided to business owners and family businesses include:

- **Preservation of business activities in case of unexpected events** such as inheritance, divorce, marriage, or the arrival of a new generation.
- **Ensuring asset integrity**, targeted distribution, and profit sharing for future generations, family members, and close persons. We place maximum emphasis on asset protection, business sustainability, and lasting balanced arrangements.
- **Utilisation of family-type endowment and trust funds** as one of the fundamental and effective tools of the proposed solutions.
- **Preparation of a succession or internal reorganisation process**, including a time and action plan and subsequent implementation, taking into account the priorities set and the interests of all parties concerned.
- **Involvement of individual family members**, family branches, or generations in the running of the family business, professional management of business assets, and meeting the financial needs of family members (family office concept) as part of the proposed solutions.
- **Support throughout the entire asset acquisition and/or sale process** for companies and their owners to maximise the sale value, including screening of assets being acquired or sold in acquisition projects and ensuring clear and functional documentation.

Our services provided to individuals include:

- **Representing and advising in all types of proceedings**, in particular divorce, co-ownership settlements, family disputes, civil disputes, administrative proceedings (e.g. with the tax office or other public authorities) or representing clients in misdemeanour or criminal proceedings.
- **Assisting in the drafting of prenuptial agreements, the reduction of common property of spouses, or the formulation of a last will** (testament), taking into account the specifics of the client's requirements and at the same time with the maximum degree of discretion.
- **Legal and tax services in any property disposition**, acquisition, sale, or securing of property.
- **Establishment of family-type endowments and trust funds**, including setting up rules for their administration and distribution of payments to beneficiaries.
- **Legal assistance in unexpected life situations** such as car accidents or injuries, representation in dealing with insurance companies, etc.
- **Advising on personal taxation, health insurance, or social security issues**, both in the Czech and international context, in case of posting abroad, or work and business outside the Czech Republic.
