Investment Aid

We assist companies with implementing their investment projects and look for external financing opportunities for them.

Are you planning an investment in fixed tangible or intangible assets with regard to:
- Creation of a new establishment;
- Capacity expansion of an existing establishment;
- Diversification of production;
- Fundamental change to a production process?

Under the Act on Regional Investment Aid, entities in Slovakia can obtain investment aid to support the implementation of an investment plan for:
- Industrial production;
- Technology Centre;
- Shared Service Centre.

Take advantage of the opportunity to obtain an external source of financing in the form of investment aid.

Intensity of aid	• 40 – 50% of eligible expenses
Eligible expenses	• Investment costs spent on acquired fixed tangible assets incurred over 5 years • Costs of new employees incurred over 2 years • Combination of investment and labour costs not exceeding the amount of the higher cost
Forms of investment aid	• Subsidy for the acquisition of tangible fixed assets or for wage costs • Income tax relief • Rent / sale of real estate at lower than the market value
Time and local restrictions	• Applications can be made at any time • The Bratislava region is excluded
Granting of investment aid	• Subject to approval by the Government of the Slovak Republic (approx. 180 days)
